NEW

THE WORDS "NEW" AND "INNOVATIVE" SEEM TRITE WHEN ATTEMPTING TO DESCRIBE THE NEW WINCHESTER SUPER SHADOW MODEL 70. THIS NEXT GENERATION "RIFLEMAN'S RIFLE" MUST BE SEEN AND TOUCHED TO BE APPRECIATED. IT IS A WHOLE NEW APPROACH TO FUNCTION, DESIGN, FEEL AND AGGRESSIVE ERGONOMICS THAT MAKE THIS NEW RIFLE DIFFICULT TO PUT DOWN. PAIRED WITH THE NEW FUNCTIONALITY ON THE OUTSIDE ARE MANY NEW SURPRISES IN THE ACTION, INCLUDING NEW CALIBERS!

NEW MODEL 70 SUPER SHADOW: HOT TO GO!

**WINCHESTER®
INTRODUCED
THE WSM –
NOW MEET
THE REST OF
THE FAMILY.**

DID YOUR DAD SHOOT A 30-06? PERHAPS THE VENERABLE 308, 270 OR 243? FOR LARGER GAME, HE MIGHT HAVE SELECTED THE POWERFUL 7MM REM. MAG. OR THE HARD-HITTING 300 WIN. MAG. THESE TIMELESS CARTRIDGES WERE AND STILL ARE VERY POPULAR AMONG SHOOTERS WORLDWIDE. YET THE INTRODUCTION OF THE WSM (WINCHESTER SHORT MAGNUM) CARTRIDGES OPENED UP A WHOLE NEW REALM FOR TODAY'S HUNTERS AND SHOOTERS. THE 270 WSM AND THE 300 WSM BOTH RECEIVED "THE CARTRIDGE OF THE YEAR" AWARD FOR 2001 AND 2002 RESPECTIVELY. NOW MEET THE NEW 223 WSSM AND 243 WSSM (WINCHESTER SUPER SHORT MAGNUM) CALIBERS. WE WISH WE COULD HAND THEM TO YOU SO YOU COULD EXAMINE THEM FIRSTHAND. THESE CARTRIDGES ARE VERY FAST, EFFICIENT, ACCURATE AND FLAT SHOOTING. BEST OF ALL, THE RIFLES THAT FIRE THEM ARE SHORTER, LIGHTER, EASIER TO CARRY, EASIER TO SHOULDER, EASIER TO SWING AND FASTER TO CYCLE. WHAT WOULD YOUR FATHER THINK?

THE GUNS THAT WORK.™

HARD WORKING RELIABILITY. ASK ANY ONE OF THE MILLIONS OF WINCHESTER GUN OWNERS AND THEY'LL AGREE THAT OUR REPUTATION IS BUILT ON RELIABILITY. A WINCHESTER IS BUILT TOUGH, WITH SUPERIOR COMPONENT FIT AND FINISH TO ALLOW PARTS TO FUNCTION CONSISTENTLY. WINCHESTERS WORK TO KEEP YOU IN THE FIELD OR ON THE RANGE WHEN OTHER GUNS QUIT. BUT WE DON'T STOP AT RELIABILITY; WE HAVE THE SHOOTER IN MIND AS WELL. WE CAREFULLY CONSIDER THE ERGONOMICS OF EACH GUN, ENSURING THAT A WINCHESTER FITS RIGHT, ALLOWING YOU TO SHOOT YOUR BEST WHEN IT COUNTS MOST. FOR 2003, WINCHESTER INTRODUCES THE NEW SUPER SHADOW MODEL 70 WITH CONTROLLED ROUND PUSH FEED INNOVATION AND THE NEW ULTIMATE SHADOW WITH RUBBER STOCK INLAYS. (MORE HOT NEWS ABOUT THIS LATER.) CHOKE TUBES ARE NOW AVAILABLE FOR THE MODEL 9410 .410 SHOTGUN SO YOU CAN SELECT THE PROPER PATTERNS. MODEL 94'S NOW FEATURE A TOP-TANG SAFETY. ALONG WITH ALL THESE EXCITING NEW PRODUCTS AND FEATURES COMES THE INCREDIBLE WINCHESTER SUPER SHORT MAGNUM (WSSM) CALIBERS IN 223 WSSM AND 243 WSSM. THEY REPRESENT THE BIGGEST IMPROVEMENT IN CARTRIDGE DESIGN IN OVER A CENTURY. THE NEWEST, HOTTEST, FASTEST, FLATTEST-SHOOTING CALIBERS CAN NOW BE IN YOUR HANDS.

BENCHREST SHOOTERS HAVE LONG KNOWN THE ACCURACY ADVANTAGES OF A SHORT, FAT CASE, SUCH AS A 6MM BR OR 22 PPC. A SHORT, FAT CASE PRODUCES A MORE UNIFORM BURN, WHICH PROVIDES CONSISTENT SHOT TO SHOT VELOCITY AND BETTER ACCURACY.

INTRODUCING THE LATEST INNOVATION FROM WINCHESTER®, THE 223 AND 243 WINCHESTER SUPER SHORT MAGNUM (WSSM). THESE CALIBERS TAKE THE SHORT MAGNUM CONCEPT ONE STEP FURTHER TO BRING YOU THE HOTTEST NEW HIGH-VELOCITY CARTRIDGES YOU CAN GET. THIS SPEED IS ACHIEVED BY PUTTING A LIGHTWEIGHT BULLET ON TOP OF A SHORT, FAT, HIGH-VOLUME CASE. WHAT YOU GET IS MUZZLE VELOCITIES IN EXCESS OF 3800 FPS.

THE 2.36" OVERALL CARTRIDGE LENGTH OF THE WSSM IS SHORTER THAN THE TYPICAL SHORT ACTION. BECAUSE OF THIS, WE HAVE CREATED A WHOLE NEW "SUPER-SHORT" ACTION SIZE FOR OUR MODEL 70 RIFLES. NOW YOU CAN GET YOUR MODEL 70 IN LONG ACTION, SHORT ACTION OR SUPER-SHORT ACTION. THE MODEL 70 SUPER-SHORT ACTION IS NOW YOUR FAVORITE BENCHREST RIFLE, YOUR FAVORITE VARMINT RIFLE AND YOUR FAVORITE MOUNTAIN RIFLE ALL IN ONE.

THE CONCEPT OF SHORT, FAT AND FAST WAS PIONEERED BY WINCHESTER WITH THE 300 WSM, 270 WSM AND 7MM WSM SHORT MAGNUM RIFLES. THESE CALIBERS GENERATE TRUE MAGNUM BALLISTICS IN SHORT-ACTION CARTRIDGES. THIS YEAR, EVEN MORE MODEL 70S ARE CHAMBERED FOR WSM CALIBERS.

WHETHER YOU WANT A SHORT-ACTION MAGNUM FOR BIG GAME OR A SUPER-SHORT-ACTION TACK-DRIVER, WE'VE GOT THE RIFLE FOR YOU.

THE NEW SHAPE OF MAGNUM CARTRIDGES.

MAGNUM POWER.

NEW SUPER SHORT SUPER FAST SPEED.

A COMPLETE LISTING OF WSSM BALLISTICS IS AVAILABLE ONLINE AT BOTH WWW.WINCHESTER-GUNS.COM AND WWW.WINCHESTER.COM

WSM BALLISTICS COMPARISON

Caliber	Bullet Weight (grains)	Overall Cartridge Length (in.)	Muzzle Velocity (fps.)	Trajectory at 300 yds. (zero 100 yds.)	Muzzle Energy (ft. lbs.)
270 BALLISTICS COMPARISON					
270 WSM	130 grains	2.860"	3,275 fps	-8.9	3,096
270 Win.	130 grains	3.340"	3,050 fps	-10.8	2,685
270 Wby. Mag.	130 grains	3.295"	3,200 fps	-9.5	2,955
7 MM BALLISTICS COMPARISON					
7mm WSM	140 grains	2.860"	3,225 fps	-9.1	3,233
7mm Rem. Mag.	140 grains	3.290"	3,100 fps	-10.22	2,987
300 BALLISTICS COMPARISON					
300 WSM	180 grains	2.860"	2,970 fps	-11.7	3,526
300 Win. Mag.	180 grains	3.340"	2,960 fps	-11.9	3,503
300 H&H	180 grains	3.600"	2,880 fps	-12.7	3,316

All specifications approximate and subject to change depending on ammunition manufacturer, barrel length, specific load and conditions. For more ballistic details visit the Winchester Ammunition website at: www.winchester.com.

Study the comparisons. You get much better ballistics in a smaller package with the WSM Family.

A MOST UNCOMMON RIFLE STOCK.

NEVER BEFORE IN WINCHESTER'S® HISTORY HAS THERE BEEN SUCH A DYNAMIC CHANGE IN STOCK DESIGN AND COMPOSITION. STRIKINGLY HANDSOME, SURE-GRIP TEXTURES, CONTRASTING CONTOURS AND FLOWING LINES MAKE IT AS VISUALLY APPEALING AS IT IS MECHANICALLY FUNCTIONAL. FIBERGLASS MICRO-FIBERS IN THE STOCK COMPOSITION, UNIQUELY ENGINEERED, PUT THE SUPER SHADOW, SUPER SHADOW SUPER SHORT AND ULTIMATE SHADOW RIFLES IN THE "LIGHTER RIFLE" CLASS. LIGHTER, QUICKER, SMOOTH AND COMFORTABLE TO SHOULDER AND MANEUVER. THE NEW RECOIL PAD DESIGN OFFERS EXCEPTIONAL COMFORT WITH MAGNUM CALIBERS.

ULTIMATE SHADOW MODELS FEATURE OVER-MOLDED RUBBER GRIP SURFACES FOR A SOFTER, MORE POSITIVE GRIP.

MODEL 70 SUPER SHADOW

(Scope not included.)

6 NEW ENERGY-ABSORBING RECOIL PAD IS EXCLUSIVE TO THE SUPER SHADOW AND ULTIMATE SHADOW RIFLES.

5 MOCK CHEEKPIECE AND FLAT COMB FOR EXTRA COMFORT AND BETTER SCOPE ALIGNMENT.

2 NEW OVAL-DOT TEXTURED GRIPPING SURFACE. RUBBERIZED ON ULTIMATE SHADOW.

1 MAGAZINE HOLDS 3 WSM OR WSSM CARTRIDGES FOR A MAXIMUM CAPACITY OF 4 ROUNDS IN A TRIM STOCK PROFILE.

YOUR FIRST INDICATION THAT THE NEW SUPER SHADOW MODEL 70 STOCK IS TOTALLY DIFFERENT IS THE SMOOTH FLOWING CONTOUR LINES MOLDED INTO ITS ENTIRE LENGTH. THE HANDSOME GRIP TEXTURES AT THE PISTOL GRIP AND FORE-END AREA BEG YOU TO PICK UP THE RIFLE. AS YOU DO, THE STOCK COMES UP QUICKLY, SMOOTHLY, NESTING COMFORTABLY IN YOUR HANDS. YOU GET A FEELING OF RUGGED STRENGTH AND SURENESS, YET IT IS SURPRISINGLY LIGHTWEIGHT. HERE IS A RIFLE YOU CAN'T RESIST GRABBING OFF THE RACK THEN DISCOVERING IT FEELS AS GOOD AS IT LOOKS.

CONTROLLED ROUND PUSH FEED

LOOK FOR THESE SYMBOLS:

CONTROLLED ROUND FEED "CLASSIC"

CONTROLLED ROUND PUSH FEED

PUSH FEED

CRPF: LET US DEFINE IT.

CONTROLLED ROUND PUSH FEED (CRPF) IS A NEW DESIGN THAT LETS THE BOLT FACE CONTROL THE CARTRIDGE FROM MAGAZINE TO CHAMBER, BUT WITH A PUSH FEED STYLE BUILT-IN, BOLT FACE EXTRACTOR. SINCE IT UTILIZES A BLADE-TYPE FIXED EJECTOR, THE SHOOTER CONTROLS THE AMOUNT OF EJECTION BY THE SPEED THE BOLT IS WORKED. IDEAL FOR SHOOTERS WHO SAVE THEIR BRASS. NO MATTER IF YOU CYCLE IN SHELLS FROM THE MAGAZINE OR LOAD THEM ONE AT A TIME, THE BASE OF THE CARTRIDGE IS QUICKLY CAPTURED AND SECURELY GUIDED TO THE CHAMBER. THE ROUND DOES NOT DIP, DIVE OR JAM INTO EDGES UPON CLOSING THE BOLT.

4 SLIM FORE-END FOR LIGHTER WEIGHT AND A MORE ERGONOMIC GRIP.

3 SUPERIOR GRIPPING SURFACE, INCORPORATING OVAL-DOT TEXTURED SURFACE. ULTIMATE SHADOW FEATURES SOFT RUBBER OVERMOLDING ON GRIPPING SURFACES ON GRIP AND FORE-END.

CRPF: BEST OF BOTH WORLDS.

Super Shadow models have the new Controlled Round Push Feed bolt. It picks up the cartridge base securely, whether from the magazine stack or when loaded singly. A blade-type ejector allows you to control the force of ejection by the speed in which the bolt is worked.

BUILT-IN COMFORT IN A NEW STOCK DESIGN.

Specially molded composite stocks provide dramatic visual appeal, yet feel naturally balanced in the hands ... secure, solid, yet lightweight so you can carry it confidently, comfortably. Oval-dot gripping surfaces provide a sure grip.

Shown: Model 70 Classic Camo Ultimate Shadow in New Mossy Oak® Break-Up™

NEW RECOIL PAD IS EXCLUSIVE TO WINCHESTER® ... SOFT ON YOUR SHOULDER.

The new recoil pad is made from a special composition material with high absorption properties, taming sharp recoil. It nearly molds itself to the contours of your shoulder. It blends in and complements the stock beautifully and features a unique rear gripping pattern.

MODEL 70

IN 2001 A JOINT EFFORT OF WINCHESTER® FIREARMS, WINCHESTER AMMUNITION AND BROWNING PRODUCED THE 300 WSM. IT WAS LIKE NO OTHER CARTRIDGE EVER, AND WAS THE FIRST SIGNIFICANT CHANGE IN CARTRIDGE DESIGN IN OVER 30 YEARS. NEXT CAME THE 270 WSM AND THE 7MM WSM. HUNTERS AND SHOOTERS CAUGHT ON QUICKLY AND DECIDED THAT THESE HOT, NEW CALIBERS WERE WHAT THEY HAD BEEN WAITING FOR. THEY ARE IDEAL FOR NEARLY EVERY BIG GAME USE. NOW MEET THE NEWEST OF THE NEW: THE FAST, FLAT SHOOTING 223 WSSM (WINCHESTER SUPER SHORT MAGNUM) AND THE 243 WSSM. NEW ACTIONS, STOCKS AND CALIBERS. WINCHESTER FOR 2003 DESERVES A VERY SERIOUS LOOK.

WSM AND WSSM ... MEET THE NEW GENERATION OF MODEL 70 RIFLES.

MODEL 70 CLASSIC
ULTIMATE SHADOW, STAINLESS

Classic Stainless Action. Rubberized oval-dot grip inserts.
New one-piece bottom metal.

MODEL 70 CLASSIC
ULTIMATE SHADOW, BLUED

Rubber grip inserts, Classic Action.

MODEL 70 CLASSIC
SUPER SHADOW SUPER SHORT

Short, composite stock, with CRPF super short action, WSSM calibers. Blind magazine.

RIFLES IN WSM AND WSSM CALIBERS

MODEL 70
SUPER SHADOW

The new Super Shadow Model 70 features the new Super Shadow stock. The gripping and handling points feature raised ovals to ensure you have a good grip, even when wet. The 24" barrel complements the new stock. Magazine capacity is three rounds in all calibers. Blind magazine. New Controlled Round Push Feed. Light and fast — a top value in WSM calibers. See page 4 for more features.

MODEL 70 CLASSIC
FEATHERWEIGHT™ SUPER SHORT

Scaled down by .54 inches in receiver length to fit the new WSSM calibers, the Model 70 Featherweight Super Short is just what you need if you're hunting rough country, covering a lot of ground and burdened down with equipment. Trim proportions and a shallower profile, coupled with a 22" barrel give it possibly the most perfect "mountain rifle" dimensions ever. Choose the new 223 WSSM or 243 WSSM calibers. Classic Controlled Round Feed action. To appreciate its design, just shoulder one.

MODEL 70
COYOTE

Here is the all-time favorite, most versatile Model 70 for today's long range, on-the-move varmint shooter. The Coyote is now available in the new WSSM calibers in 223 WSSM and 243 WSSM. Shorter, lighter, faster short-action cycling, and a 24" barrel, the Coyote maintains the famous legacy that is well known to Winchester rifle owners. WSSM and WSM versions feature the new Controlled Round Push Feed bolt, so how could it get any better for varmint hunters? Here is your rifle. Standard short action calibers feature the push feed bolt design.

(Scope not included.)

WSM AND WSSM CALIBERS

SEE SPECIFICATIONS ON PAGE 12.

MODEL 70 CLASSIC

ULTIMATE SHADOW, STAINLESS

Easily, the most innovative, most exciting rifle to roll out from the industry in many years. Feeling as good as it looks, the newly designed stock with raised, rubberized gripping surfaces comes to shoulder naturally with a feel of rugged comfort. All stainless steel 24" barrel and action is ready for any type of weather. Ammo is picked up solidly from the new hinged floorplate magazine by the Classic Controlled Round Feed action. Available in 270 WSM, 7mm WSM and 300 WSM.

MODEL 70 CLASSIC

ULTIMATE SHADOW, BLUED

With the same new stock as the Stainless Classic Ultimate Shadow, the blued version gives hunters a choice with a traditional blued, 24" barrel. The rubberized integrated, elevated oval style gripping surfaces on the stock ensure a comfortably secure, solid grip even when cold or wet. Select your choice of 270 WSM, 7mm WSM or 300 WSM chamberings.

MODEL 70

SUPER SHADOW SUPER SHORT

Get acquainted with the perfectly proportioned rifle for the new WSSM cartridges. The Super Short Super Shadow has a shortened receiver that is lighter, shorter and quicker handling with a 22" barrel. This rifle in 223 WSSM will push a lightweight bullet at 3,800 fps, significantly faster than comparable bullet in a 22-250 Remington. Features our new blind magazine and Controlled Round Push Feed action.

MODEL 70

ARE YOU READY FOR SOME HEAVY ACTION?

NO QUESTION ABOUT IT. THE MODEL 70 IS THE BOLT ACTION RIFLE OF THE CENTURY. FEW RIFLES HAVE ACHIEVED THE STATURE OF THE CLASSIC MODEL 70. WHEN THE MODEL 70 FEATHERWEIGHT™ WAS GIVEN THIS PRESTIGIOUS TITLE, IT WAS NO SURPRISE TO HUNTERS AND SHOOTERS ACROSS THE WORLD. NO OTHER RIFLE COMPARES TO THE MODEL 70'S CLASSIC GOOD LOOKS, REPUTATION FOR DEPENDABILITY AND PROVEN ACCURACY. EACH RIFLE ON THIS PAGE HAS THE STRENGTH OF A PRE-'64 STYLE CLAW EXTRACTOR, THE SURENESS OF CONTROLLED ROUND FEED, A THREE-POSITION SAFETY AND THE DURABILITY OF A RECEIVER-MOUNTED BLADE EJECTOR. ALL THE RIGHT FEATURES TO MAKE YOUR NEXT HUNT A SUCCESS. FEATHERWEIGHT AND STAINLESS.

SEE SPECIFICATIONS ON PAGE 12.

MASSIVE CLAW EXTRACTOR (ALL CLASSIC VERSIONS)

The large claw surface engages approximately $\frac{1}{4}$ of the cartridge base before it is chambered. This also allows you to extract even if the cartridge is not fully chambered.

NO RIFLE IS MORE IMITATED.

Quality of engineering along with exceptional ergonomics makes the Model 70 the standard of the industry. Controlled round feed on Classic models means the bolt firmly captures the cartridge base as it leaves the magazine and maintains control through ejection.

THREE-POSITION SAFETY.

The Model 70's three-position safety design has been very popular with avid hunters and shooters for over half a century.

PERFECTION.

Few stocks come to the shoulder more naturally than the Model 70 stock. Proper stock fit is imperative to sight alignment and shooting comfort. The Sporter LT shown features a sculpted cheekpiece for style and ideal head positioning and a more open grip — no less than perfection.

FEATHERWEIGHTS IN WSM CALIBERS NOW COME WITH A PACHMAYR® DECELERATOR™ RECOIL PAD.

MODEL 70 CLASSIC

FEATHERWEIGHT™ AND NEW LEFT-HAND FEATHERWEIGHT™

“The bolt action rifle of the century.” Its handling quickness and lighter weight have made it famous among hunters everywhere. Jeweled bolt and knurled bolt handle. Classic straight comb stock and Schnabel fore-end. Satin finished with elegant cut checkering. Traditional red recoil pad on standard short-action calibers. WSM calibers feature a thick Pachmayr® Decelerator™ pad. For the first time, the Featherweight is available in left-hand versions chambered for all three Winchester WSM cartridges.

MODEL 70 CLASSIC **SPORTER LT**

MODEL 70 CLASSIC **STAINLESS**

DURA-TOUCH™

MODEL 70 CLASSIC **CAMO ULTIMATE SHADOW**

Stainless with New Mossy Oak® Break-Up™

**MODEL 70 CLASSIC
COMPACT**

The Compact is a nicely scaled-down Model 70 — just what you need if you're a smaller adult or a young shooter. The 13" length of pull and shallower profile, coupled with a 20" barrel give it ideal "mountain rifle" dimensions. Choose 243 Win., 308 Win. or 7mm-08 calibers. Classic claw extractor action. To appreciate its design, just shoulder one.

**MODEL 70 CLASSIC
SPORTER LT**

Today's Sporter feels and fits better than ever. The stock has a more open grip and trimmer fore-end, and a comfortable cheekpiece for superb balance and function. Recoil pad profile offers more surface area for greater comfort. Features cut checkering, classic action with claw extractor and a fixed blade ejector.

**MODEL 70 CLASSIC
STAINLESS**

As rugged as it gets! A stainless steel barrel and action are combined with a traditional style, composite, sporter-style stock to make a very serious rifle. The synthetic stock takes humid conditions without affecting accuracy. All stainless Classic action with claw extractor and reliable fixed ejector. Now available in most long-action calibers and all three WSM calibers.

**MODEL 70 CLASSIC
CAMO ULTIMATE SHADOW**

Winchester takes the Stainless Classic Model 70 and gives you more than you asked for. Stainless steel barrel and action with composite stock is now offered in the hot short action WSM calibers and neatly camouflaged in New Mossy Oak® Break-Up™. All these features plus the new Ultimate Shadow stock, finished with Dura-Touch™, in place of rubber overmouldings.

MODEL 70

ROMANCE WITH A RIFLE? ONLY WITH A WINCHESTER®.

EVERY RIFLE IS ULTIMATELY COMPARED TO A MODEL 70. FOR WELL OVER HALF A CENTURY, THE MODEL 70 CLASSIC DESIGN HAS DEFINED WHAT A BOLT-ACTION RIFLE SHOULD BE. YET WE CONTINUALLY WORK TO MAKE THE INDUSTRY'S BEST BOLT ACTION EVEN BETTER. AN EXAMPLE IS THE CLASSIC SAFARI EXPRESS (SHOWN BELOW) WITH ITS LIST OF GREAT FEATURES INCLUDING: 1) ADJUSTABLE EXPRESS-STYLE REAR SIGHT WITH STANDING BLADE. 2) STOCK WITH NEGATIVE DROP, FULLER GRIP AND WIDER GRIP FOOTPRINT FOR INCREASED CONTROL AND RECOIL ABSORPTION. 3) SPECIAL, SOFTER DENSITY RECOIL PAD. 4) "PICTURE FRAME" FLOORPLATE AND TRIGGER GUARD SYSTEM CONNECTED IN A ONE-PIECE CONFIGURATION. 5) FULL BARREL BAND SWIVEL ATTACHMENT. 6) STEEL RECOIL-ABSORBING CROSSBOLTS. THE CLASSIC SUPER GRADE HAS ENDURING FEATURES SUCH AS A MASSIVE CLAW EXTRACTOR, CONTROLLED ROUND FEED, MECHANICAL EJECTOR, FIELD-STRIPPABLE BOLT ASSEMBLY, THREE-POSITION SAFETY AND MORE.

SEE SPECIFICATIONS ON PAGE 12.

EXPRESS-STYLE REAR SIGHT.

Full adjustability, precision and total reliability. Insist on no less when you enter the tall grass, hunting large and possibly dangerous game. Available on Classic Safari Express only.

PICTURE FRAME FLOORPLATE DESIGN.

The trigger guard and floorplate assembly are connected, creating a one-piece configuration for added durability and a cleaner, custom appearance. Now on Classic Safari Express and Classic Super Grade.

MODEL 70 CLASSIC RMEF SUPER GRADE STAINLESS

Winchester is very proud of its association with the Rocky Mountain Elk Foundation. A stainless action fitted to a beautiful super grade stock. Pachmayr® Decelerator™ pad. Made to handle heavy-hitting calibers like the 300 Win. Mag. A portion of all the sales from this rifle will go to help support the RMEF in improving elk habitat and engaging in elk research all across the country. Available in 300 Win. Mag. only. Special RMEF emblem on the grip cap. *(Limited quantities.)*

MODEL 70 CLASSIC SAFARI EXPRESS

Heavy calibers for heavy game. The answer to the needs of Africa-bound hunters is today's Model 70 Classic Safari Express. You'll appreciate the durable Classic action with pre-'64 type claw extractor design, large recoil pad footprint, dual recoil lugs and express-style rear sight. 375 H&H, 416 Rem. Mag. or 458 Win. Mag. This rifle is built for the heavy cartridges, yet is comfortable and quickly shouldered. For once-in-a-lifetime hunts, this is all the rifle you'll need.

MODEL 70 CLASSIC SUPER GRADE

The improved Super Grade is the third generation in this classic series. It has a trimmer, more classic stock. It also features a Pachmayr® Decelerator™ recoil pad for confidence and extra comfort. Steel stock crossbolts and inletted swivels. One piece bottom metal. You'll notice and appreciate the attention to small details on this model. *(Scope not included.)*

SPECIALTY RIFLES

A TIMELESS BOLT ACTION FOR ANY CONFIGURATION. THE MODEL 70 ACTION IS SO WELL DESIGNED THAT IT HAS PROVEN TO BE THE IDEAL PLATFORM FOR BUILDING A FULL SPECTRUM OF SPECIAL MODELS — EVERYTHING FROM THE WORLD'S MOST UNIQUE, SPECIAL USE RIFLES, TO RIFLES OFFERING EXCEPTIONAL AFFORDABILITY AND VALUE. EACH RIFLE ON THIS PAGE FEATURES OUR PROVEN PUSH FEED OR CONTROLLED ROUND FEED BOLT DESIGN. WHEN THE CORNERSTONE OF YOUR RIFLE IS A MODEL 70 ACTION WITH THREE-POSITION SAFETY AND A FIELD STRIPPABLE BOLT AND PRECISION RIFLING IN YOUR FAVORITE CALIBER, YOU HAVE A RIFLE THAT WON'T LET YOU DOWN. COMFORTABLE SHOOTING AND GREATER CONFIDENCE IS THE BOTTOM LINE.

TIME-TESTED AND WELL PROVEN.

MODEL 70 CLASSIC
LAMINATED WSM

With its special brown laminated stock, short-magnum action and sporter-weight barrel, this is one of the most unique of all the WSM rifles. The durable laminated stock forms a very solid platform for the action. The stock is fitted with a 1" deluxe recoil pad for comfort. The 24" barrel provides extra compactness and a few ounces less weight. Blued receiver and barrel.

MODEL 70
STEALTH

Our heavier weight varmintier with exceptional long range accuracy. The heavy barrel is further stabilized by an extremely stable Kevlar/fiberglass graphite Pillar Plus AccuBlock™ stock with a full-length aluminum bedding block integrated into the stock for maximum stability. Matte finish on all exposed surfaces. Push feed bolt design. 26" barrel. Considered by many to be the ultimate varmint rifle. (Scope and bipod not included.)

MODEL 70
BLACK SHADOW®

Looking for a rifle that can take rough hunting conditions and not betray your presence with a reflection? Then look no further than the Black Shadow®. All business and top value. Matte blued barrel and action. Durable composite stock. Hinged floorplate design. Proven push feed bolt in popular long action calibers.

2. Twist is right hand. 3. Scopes, bases and/or rings are not included unless otherwise noted.

Suggested retail prices are in U.S. dollars and are subject to change without notice.

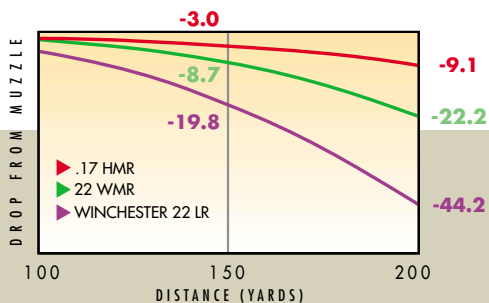

ONE CLEAN, ACCURATE SHOT. THE 1885 WINCHESTER®.

THE RIFLE: SUCCESSFUL, NOSTALGIC FIREARMS DESIGNS WILL ALWAYS ENDURE. WINCHESTER AGAIN OFFERS ONE OF THE MOST PROVEN OF ALL TIME, THE MODEL 1885 SINGLE SHOT. THIS RIFLE WAS THE VERY FIRST INVENTION OF JOHN M. BROWNING IN 1878 AND BECAUSE OF ITS INHERENT ACCURACY WAS CHAMBERED FOR MORE CALIBERS THAN ANY OTHER SINGLE SHOT OR REPEATING RIFLE. **THE BULLET:** THE BEST OF THE PAST NOW MEETS THE HOTTEST, NEWEST CALIBER OF THE FUTURE ... THE 17 HORNADY MAGNUM RIMFIRE (HMR). COMBINING A NEW POWDER AND V-MAX BULLET WITH A NEWLY DESIGNED CARTRIDGE CASE, THIS LITTLE BULLET IS THE NEW KID ON THE BLOCK ... WITH SPEED, ACCURACY AND EXPLOSIVE IMPACT.

MODEL 1885
LOW WALL 17 HMR

What better model Winchester rifle could be selected to introduce the new 17 HMR? Short, handy and fun, it's a natural. The famous falling block design on the Model 1885 is strong, solid and proven accurate. The receiver is centrally balanced to the free-floating, drilled and tapped, 24" octagon barrel with classic Schnabel forearm. Each cartridge loads easily, one at a time. After firing, lowering the lever extracts the spent cartridge. Insert another round, close the action and the rifle is cocked, ready to fire. Case-colored receiver, buttplate and lever. Classic looks, hot ballistics.

HISTORIC RIFLES										
CLASSIC TRADITIONS										
MODEL 1885 Low wall										
534095170	17 HMR	Single Shot	24"	41"	13 1/2"	7/8"	1/2"	8	9	\$936.00
NOTES: 1. Drops are measured from center line of bore. Prices are in U.S. dollars and are subject to change without notice.										

THE NEW 17 HMR CARTRIDGE: FAST, FLAT AND FUN. THE NEW 17 HMR BULLET AVERAGES 2,550 FPS., COMPARED TO THE ADVERTISED 1960 FPS. WITH THE 22 WMR. THIS INCREASED MUZZLE VELOCITY COMBINES WITH THE UNIQUE SHAPE OF THE BULLET TO RETAIN 24% HIGHER VELOCITY, 55% FLATTER MID-RANGE TRAJECTORY AND 33% LESS DRIFT AT 200 YARDS AS COMPARED WITH THE 22 WMR CARTRIDGE. IT IS LESS PRONE TO RICOCHET AND HAS A LOWER NOISE LEVEL THAN THE 22 WMR. IN ALL, A FAR SUPERIOR, MORE ACCURATE NEW CALIBER THAT IS FUN AND EXCITING TO SHOOT, ESPECIALLY IN THE NOBLE WINCHESTER MODEL 1885. EXPERIENCE A PERFECT MATCH-UP BETWEEN RIFLE AND CARTRIDGE.

MODEL 94

SOME CHANGES MOVE A PRODUCT FORWARD, SOME TAKE IT BACK. THIS YEAR WE'VE DONE BOTH WITH THE WINCHESTER® MODEL 94. LOOK AT A NEW 94 AND YOU WILL SEE ... AND YOU WON'T. YOU WILL SEE THE SAFETY THAT HAS BEEN RELOCATED TO THE TOP TANG. WHAT YOU WON'T SEE IS THE SIDE RECEIVER MOUNTED SAFETY FROM RECENT YEARS ... JUST THE CLEAN CLASSIC LINES COLLECTORS LOVE IN THE '94S OF OLD. THE APPEARANCE IS THE ONLY THING WE DARE CHANGE IN THE MODEL 94. AND THAT'S REALLY SOMETHING WE ARE JUST CHANGING BACK. THAT'S BECAUSE SOME THINGS SHOULD NEVER CHANGE. THE WINCHESTER MODEL 94 IS SUCH A RIFLE.

**PRESERVING
TRADITIONAL
LINES, LOOKS,
LEGACY.**

THE
MODEL 94
TOP-TANG
SAFETY:
SAFETY OFF

SAY THE WORD "RIFLE" AND CHANCES ARE THE FIRST WORD OUT OF A COWBOY'S MOUTH WILL BE "WINCHESTER®." THESE RIFLES ARE READY FOR COWBOY OR HUNTING ACTION. WINCHESTER WAS THERE WHEN THE WEST WAS STILL WILD. WINCHESTER WAS THERE WHEN IT WAS WON. THROUGH IT ALL, WINCHESTERS WERE THE CHOICE OF COWBOYS ACROSS AMERICA BECAUSE THEY WORKED. THEY'RE STILL WORKING JUST AS HARD TODAY — FOR COWBOY ACTION SHOOTING, JUST HAVING FUN AT THE RANGE, OR FOR THE MOST SERIOUS DEER HUNTING. THIS YEAR "THE GUN THAT WON THE WEST®" CAN BE YOUR GUN TO WIN THE MATCH OR BRING HOME GAME. SHOULDN'T YOU OWN A WINCHESTER?

LEVER ACTIONS

MODEL 94
TRAPPER™

The Trapper is the short-barreled Model 94 you'd likely have seen in the Klondike of Canada or in the hands of a Texas Ranger. It's equally suited for today's cowboy action shooting enthusiast or thick brush hunter. Like a century ago, you'll appreciate the fast handling 16" barrel, and you'll appreciate its compactness when transporting yours whether on a backpack or on today's horse: an ATV. Features a top-tang safety. Saddle ring and hammer spur extension included.

TOP-TANG SAFETY

MODEL 94
LEGACY

It takes a fine rifle to live up to the name "Legacy." This rifle does. A beautiful, hard-working rifle with an American walnut stock cut to a half pistol grip design for classic hunting fit and handling — including a superb fit when using a scope. The fit is extremely ergonomic. The longer magazine offers larger capacity. Features a top-tang safety and longer, classic forearm nose configuration with 24" barrel. Hammer spur extension included. Cut checkering. Drilled and tapped for scope mounts.

TOP-TANG SAFETY

MODEL 94
HERITAGE LIMITED EDITION HIGH-GRADE

One of One Thousand

This highly collectible Model 94 is in a class of its own. It features a rifle configuration with deluxe fore-end cap, full magazine with half octagon, half round 26" barrel. It is engraved and selectively 24k gold plated using as its pattern the historic and elegant #3 Winchester engraving pattern — a pattern that looks as striking today as it did nearly a century ago. You'll appreciate the special stock design with high-grade walnut and a classic wrap-around buttplate. The caliber is 38-55 Winchester — first introduced in 1884. A maximum of 1,000 rifles will be produced. Not only will your purchase give you and your family many years of enjoyment, but at the same time a significant portion of the sale of each One of One Thousand Heritage rifle will go to benefit the Heritage Fund and its efforts to preserve our firearms traditions. It has been many years since the original One of One Thousand rifles became among the most collectable rifles ever. Today's One of One Thousand rifles offer Model 94 lovers classic design features and beautiful engraving work that harken back to the originals. These highly collectible rifles will be the last Model 94s in history made with the crossbolt safety design.

SEE SPECIFICATIONS ON PAGE 17

SHOWN: HERITAGE LIMITED EDITION HIGH-GRADE

MODEL 94

LOOK FAMILIAR? OF COURSE IT DOES. THAT'S BECAUSE THE MODEL 94'S TIMELESS DESIGN HAS MADE IT A FAVORITE AMONG RIFLE ENTHUSIASTS FOR OVER A CENTURY. WHY? BECAUSE IT FLAT OUT WORKS ... ALWAYS HAS. IT IS ALSO ONE OF THE MOST NATURAL HANDLING RIFLES YOU WILL FIND. THE RECEIVER IS SHORT SO OVERALL BALANCE IS CENTERED BETWEEN THE HANDS. YOU CAN POSITION YOUR FORWARD HAND ANYWHERE ALONG THE FORE-END TO ACHIEVE THE IDEAL FEEL FOR YOU. THE LEVER IS PLACED WELL TOWARD THE REAR (WITH NO UNDER-RECEIVER PROTRUSION), MAKING ONE-HANDED CARRYING BALANCED AND EASY. THERE IS NO RIFLE THAT COMPARES. THERE'S ONLY ONE WINCHESTER MODEL 94.

**THE MOST POPULAR
LEVER ACTION
IN HISTORY.**

MODEL 94
TRAILS END™

NEW
TOP-TANG SAFETY

Our most serious cowboy action shooting rifle. It's the rugged rifle the cowboys depended upon and used hard. You'll enjoy it for the same reasons. And now, with the safety located on the top tang, the Model 94 has the classic, original looks again. Full 11-round magazine capacity. Choose 357, 44 Rem. Mag. or 45 Colt to match your favorite pistol. Features a walnut stock and forearm. Hammer spur extension included. And, of course, it includes an attached saddle ring on the left side of the receiver.

REMOVABLE SIGHT HOOD.
Protect the front bead on your sight, or remove the sight hood completely, depending on your preference. No tools needed. (Selected models.)

TOP-TANG SAFETY.
The safety is now on the top of the tang. Shown with safety on.

MODEL 94
TRADITIONAL

One of the most popular Model 94 versions ever — with no-nonsense dependability and the clean lines of the newly relocated top-tang safety. When you see a lever action afield, chances are it's the Traditional. Full-length magazine, barrel bands and straight grip, non-checked American walnut stock. Hammer spur extension included. Chambered in 30-30 Win. and the new 480 Ruger.

TOP-TANG SAFETY

MODEL 94
TRADITIONAL-CW

Considered the classic Model 94 with its good looks and balanced handling. Cut checkering on the grip and forearm of its American walnut stock gives you a solid grip on this quick handling gun. Chambered in 30-30 Winchester, 44 Mag. and now in 480 Ruger. Hammer spur extension and top-tang safety included. Still the most popular whitetail-style rifle for good looks and fast function.

TOP-TANG SAFETY

MODEL 94
RANGER

Select full size or Compact model. The Compact is perfect for smaller hunters: 16" barrel, recoil pad and 12½" length of pull. It is a rifle that can be handled, shouldered and shot well in either 30-30 or 357 Mag. The full size model is chambered in 30-30 Winchester only and features a buttplate. Both have a post-style front sight and a durable hardwood stock with hammer spur extension and top-tang safety. Compact shown on page 21.

Notes: *For additional capacity, add one round in the chamber. 1. Drops are measured from center line of bore. 2. Twist is right hand. 3. All Model 94's are supplied with a hammer spur extension for use when a scope is mounted. 4. Front sight hoods are removable. Suggested retail prices are in U.S. dollars and are subject to change without notice.

RIMFIRES

Choose Winchester 22 Long Rifle, 22 Magnum (WMR models) or the red-hot 17 HMR (in the new Model 9417).

NO OTHER 22 LEVER COMPARES TO A WINCHESTER®. NOT IN LOOKS, BALANCE OR RELIABLE PERFORMANCE. IN ADDITION TO OUR 9422 IN 22 LR AND 22 WMR, WE PROUDLY INTRODUCE THE 9417 IN THE HOTTEST NEW RIMFIRE CARTRIDGE TO COME ALONG IN A LONG TIME, THE 17 HMR (HORNADY MAGNUM RIMFIRE). THE 17 HMR IS A NECKED DOWN 22 WMR CASE. CURRENT FACTORY LOADINGS FEATURE AN ENTIRELY NEW, 17 GRAIN V-MAX SPITZER BOATTAIL BULLET. AT NORMAL MAXIMUM AVERAGE RIMFIRE PRESSURES, MUZZLE VELOCITY OF THE 17 HMR IS 2550 FPS, COMPARED TO THE ADVERTISED 1960 FPS FOR THE 22 WMR CARTRIDGE. WHICHEVER WINCHESTER RIMFIRE YOU CHOOSE, IT WILL BE A PRIZED POSSESSION. IT WORKS, FEELS AND LOOKS THE WAY A LEVER ACTION RIFLE SHOULD. ALL 9422'S AND 9417'S HAVE EASY, ONE-SCREW TAKE DOWN FOR CLEANING. THEY FEATURE A RELIABLE, FULL-LENGTH TUBULAR MAGAZINE, RUGGED STEEL COMPONENTS AND A CHOICE OF STOCK DESIGNS. THESE ARE RIMFIRE RIFLES MADE GOOD ENOUGH TO BE PASSED DOWN TO YOUR GRANDSON OR GRANDDAUGHTER.

Features:

- Ramp adjustable rear sight and drift adjustable front sight • Removable hooded front sight.
- All Model 9422's and 9417's are supplied with a hammer spur extension for use when a scope is mounted.

EASY, SINGLE-SCREW TAKEDOWN.

You'll love the convenience when it comes to cleaning and oiling. On your next backcountry trip you'll appreciate how compact your 9422 or 9417 can be.

MODEL 9417
TRADITIONAL™

The ultra-high velocity 17 HMR is right at home in the 9417 Traditional. It features a beautiful straight grip walnut stock with cut checkering. Removable front sight hood and hammer extension included (for use with a scope). Just possibly the ultimate squirrel hunting rifle ever.

MODEL 9417
LEGACY™

Styled after centerfire levers of a century ago, the Model 9417 is now chambered in the modern 17 HMR. The Model 9417 Legacy has a beautiful, cut-checkered walnut, semi-pistol grip stock and long-nose forearm. Long, accurate 22½" barrel. Adjustable sights with removable front sight hood. Hammer extension included (for use with a scope).

- *For additional capacity, add one round in the chamber.
 - 1. Capacity increases to 17 total when using 22 Longs in standard 22 models.
 - 2. Current standard 22 models are designed for Long and Long Rifle cartridges only.
 - 3. 22 WMR models are designed for 22 WMR (Magnum) cartridges only. 17 HMR models are designed for 17 HMR cartridges only.
 - 4. Drops are measured from center line of bore.
 - 5. Twist is right hand.
- Suggested retail prices are in U.S. dollars and are subject to change without notice.

Model 9422 and 9417 feature abbreviations:

- LR: Long Rifle
- WMR: Winchester Magnum Rimfire
- HMR: Hornady Magnum Rimfire

Features:

- Ramp adjustable rear sight and drift adjustable front sight.
- Removable hooded front sight.
- All Model 9422's and 9417's are supplied with a hammer spur extension for use when a scope is mounted.

MAGNUM POWER.

Choose either 22 Long Rifle, 22 Magnum (WMR) or 17 HMR. If you need extra power for larger varmints, the 22 WMR and 17 HMR give you more energy, higher velocity and flatter trajectory.

MODEL 9422
TRADITIONAL™

The 9422 Traditional features a beautiful straight grip walnut stock with cut checkering. This rifle has become the standard of comparison for every 22 lever action in the world. The resemblance of this rifle to its centerfire big brother (the Model 94) adds to the appeal. Choose 22 Long Rifle or 22 WMR. Removable front sight hood and hammer extension included (for use with a scope).

MODEL 9422
LEGACY™

The Model 9422 Legacy has a look and appeal that can't be ignored. It is unique with its semi-pistol grip stock, long forearm nose, and long 22 1/2" barrel. Styled after centerfire levers of a century ago. Beautifully cut-checkered walnut stock and fore-end. Removable front sight hood. Adjustable sights. Hammer extension included (for use with a scope).

USING A RIFLE OR SHOTGUN THAT IS TOO LARGE MAY CAUSE EXCESSIVE RECOIL, MISSED TARGETS OR GAME AND AN OVERALL POOR EXPERIENCE AFIELD. A SHOOTER SHOULD NEVER HAVE TO COMPROMISE BY SHOOTING A FIREARM THAT IS TOO LONG, TOO HEAVY OR SIMPLY DOES NOT FIT. AND THE TRUTH IS, NOT MANY FIREARMS TODAY ARE MADE TO ACCOMMODATE SMALLER-FRAMED SHOOTERS. THAT'S WHY WE BUILD COMPACT VERSIONS OF SOME OF THE MOST POPULAR WINCHESTER MODELS OF RIFLES AND SHOTGUNS. GUNS LIKE THE WINCHESTER COMPACTS ARE MADE TO FIT AND ARE PERFECT FOR THOSE WHO ARE SMALLER IN STATURE. A WINCHESTER COMPACT IS ALSO USEFUL ON THOSE HUNTS WHEN WEARING A HEAVY COAT OR LAYERS OF CLOTHING MAY DEMAND A SHORTER LENGTH OF PULL THAN A FULL-SIZED FIREARM AFFORDS. ADDITIONALLY, SERIOUS HUNTERS SIMPLY APPRECIATE THE COMPACT SIZE AND THE LIGHT WEIGHT OF A SHORTER "MOUNTAIN-TYPE" FIREARM. YOU CAN'T REALLY KNOW HOW MUCH OF A DIFFERENCE IT WILL MAKE TO YOU OR A FAMILY MEMBER UNTIL YOU TRY THE FIT OF A COMPACT. ASK YOUR DEALER TO TAKE ONE OFF THE RACK AND BRING IT TO YOUR SHOULDER. WINCHESTER COMPACTS FIT YOU RIGHT.

WINCHESTER COMPACTS: THE GUNS THAT FIT.

Notes:

1. All Non-Defender Model 1300's have a magazine capacity of 4 and a capacity of 5 including one in the chamber. Defender Models have a total shot shell capacity of 8.
2. All WinChoke® equipped guns are supplied with a special spanner wrench for removing and installing choke tubes.
3. All Model 1300's (except Defender models) are supplied with a removable plug that limits magazine capacity to two shells. Model 1300 Ranger Compact: Includes a universal plug for limiting magazine capacity to one, two or three shells.
4. Checkering patterns may be subject to change.
5. Suggested retail prices are in U.S. dollars and are subject to change without notice.

* For Model 70 and Model 94 total capacity, add one to the chamber

Choke Abbreviations:

VR = Ventilated rib.
 Rifled = Fully rifled barrel, no choke.
 W3 = WinChoke®, Full, Modified and Imp. Cylinder Tubes
 W5W = complete set of 5 cylinder to full.

MODEL 70 CLASSIC
CLASSIC COMPACT
(Scope not included.)

A premium rifle with everything that has made the Model 70 the world's most acclaimed rifle, plus a scaled-down stock with trim, compact, fast-aiming proportions. The short 13" length of pull will prove ideal for smaller shooters or for cold days, when you're wearing heavy layers of clothing. The compact 20" barrel and shallower profile give it great balance. An ideal "mountain rifle" for the most serious deer hunters — young or old. Pre-'64 type Classic action.

MODEL 94
RANGER® COMPACT

The Model 94 Winchester was the first deer gun many of us owned. Fortunately, the best is now even better with a true deer hunting Model 94 made especially for smaller hunters with a 16" barrel and 12½" length of pull. New tang safety gives the receiver a classic look. Post-style front sight, durable hardwood stock and hammer spur extension (included). Shooting perfection in a small, reliable package.

MODEL 1300
SPORTING/FIELD COMPACT
(Full size version on page 38.)

With smaller stock and forearm dimensions, the Sporting/Field Compact is the ideal gun for the smaller shooter looking to build confidence. High performance features like a TRUGLO® TRU-BEAD™ fiber optic front sight, mid bead, and five WinChoke® tubes are all standard equipment. The Pachmayr® Decelerator™ recoil pad makes the Sporting/Field comfortable to shoot all day. Easy to swing 24" ventilated rib barrel. Four extra fiber optics in different colors included. The most complete Winchester Model 1300 ever.

MODEL 1300
RANGER® COMPACT

With a length of pull of just 13", the Ranger® Compact is an affordable, comfortable shotgun for the young shooter. Drop at heel is just 2¾" for better rib alignment. The inertia-assisted Speed Pump™ rotary bolt makes pumping not only much faster, but much easier as well. The grip area is smaller for better finger-to-trigger fit. The forearm is positioned rearward for a shorter reach, making it easier to work the action. Complete with the interchangeable WinChoke® system for excellent shot patterns.

MODEL 1300
RANGER® DEER COMPACT

Improvements in 20 gauge slug technology mean that smaller hunters can shoot a lighter, faster handling slug gun. With superb ballistic performance, the Model 1300 Compact Deer is the right tool for the smaller or younger shooter in states where slugs are required. The rifled barrel is specially designed to be accurate when shooting high performance 20 gauge sabot slugs. The Ranger® Deer is lightweight and fits better with a 13" length of pull and 22" barrel. The Speed Pump™ rotary bolt makes pumping easier and faster. Adjustable rifle-type sights. Non-glare finish on metal surfaces and on the hardwood stock.

MODEL 9410 PACKER COMPACT SHOTGUN SHOWN ON PAGE 25, AND MODEL 70 CLASSIC FEATHERWEIGHT SUPER SHORT SHOWN ON PAGE 7.

MODEL 9410

YOU DON'T WIN "SHOTGUN OF THE YEAR" BY FOLLOWING THE RULES.

SINCE THEIR INTRODUCTION IN 2001, WINCHESTER MODEL 9410 SHOTGUNS HAVE GAINED QUITE A REPUTATION. YOU SEE, LIKE THEIR RIFLE COUNTERPARTS, THE TRIED AND TRUE MODEL 94'S, MODEL 9410 SHOTGUNS ARE RELIABLE, BALANCED AND FAST HANDLING. BUT THE MODEL 9410 IS KNOWN FOR ANOTHER REASON: IT IS SIMPLY FUN TO SHOOT. OF COURSE, AFTER TESTING IT WITH THOUSANDS OF ROUNDS OF SHOOTING CLAY TARGETS, WE ALREADY KNEW THIS. SO, WHEN THE MODEL 9410 WON THE *SHOOTING INDUSTRY* ACADEMY OF EXCELLENCE "2001 SHOTGUN OF THE YEAR" AWARD, WE WEREN'T TOO SURPRISED. BECAUSE NOT ONLY DOES THE DESIGN HAVE OVER 100 YEARS OF PROVEN RELIABILITY BEHIND IT, IT ALSO HAS INNOVATIONS LIKE THE ACE SYSTEM (ANGLE CONTROLLED EJECT), AN EXTRACTOR/EJECTOR DESIGN THAT EJECTS ALL 2½" SHOTGUN SHELLS WITH THE SAME POSITIVE FORCE, REGARDLESS OF HOW SLOW OR FAST THE ACTION IS OPENED. THAT MEANS THE MODEL 9410 WILL FIRE THE FACTORY 2½" LOADS YOU WANT: LIGHT TARGET LOADS, BIRD SHOT LOADS AND EVEN RIFLED SLUGS — MAKING THE MODEL 9410 EXTREMELY VERSATILE. AND, FOR 2003, WE'VE INCREASED THE VERSATILITY OF THE MODEL 9410 WITH THE OPTION OF THE INVECTOR™ CHOKE SYSTEM ON THE TRADITIONAL AND PACKER MODELS. THAT MEANS THE MODEL 9410 NOW SHOOTS THE PATTERNS YOU WANT FOR THE QUARRY YOU'RE AFTER. FOR THE BUDGET MINDED, WE'VE ALSO ADDED A VALUE-PACKED RANGER MODEL TO THE LINE. SOUNDS LIKE MORE FUN IS IN STORE FOR THE MODEL 9410.

TOP-TANG SAFETY

NOW WITH A NEW
TOP-TANG SAFETY.

SHOWN: MODEL 9410 TRADITIONAL

TRUGLO

MODEL 9410

TRADITIONAL LEVER ACTION SHOTGUN WITH INVECTOR™ CHOKES

All the features of the original. The award winning Model 9410 Traditional is back and better than ever. Thanks to the addition of the versatile Invector™ choke system, you can match the factory 2½" .410 bore shotgun loads you want to shoot — including Foster-type rifled slugs — with the game you're after. So whether you are hunting clay targets, cottontails or doves, your pattern performance is optimized. And, with the wide array of high-performance shotshells and slugs available, the new Invector equipped Model 9410 Traditional could be the most versatile combination gun ever produced. The TRUGLO® front sight is combined with a modified shallow "V" adjustable rear sight for a clear field of view for accurate shooting while the front sight aids in rapid target acquisition. The full-length tubular magazine allows for nine shots. For 2003, a new tang safety has been incorporated on the Model 9410, bringing back the classic good looks of the original Model 94 rifles.

MODEL 9410

WITH THE ADDITION OF THE INVECTOR™ CHOKE SYSTEM TO THE MODEL 9410 SHOTGUN, THESE QUICK HANDLING, VERSATILE FIREARMS ARE EVEN BETTER. NOW YOU CAN COUNT ON A MODEL 9410 TO GIVE YOU EXACTLY THE SHOT PATTERNS YOU WANT: MORE OPEN PATTERNS FOR CLOSER, FASTER MOVING TARGETS TO EVEN TIGHTER PATTERNS THAN OUR NON-CHOKED MODELS FOR LONGER DISTANCE SHOOTING.

**MORE
VERSATILE.
MORE FUN.
FOUR NEW
MODEL 9410'S.**

THE VERSATILITY YOU WANT.

Model 9410 shotguns without the Invector™ choke system produce essentially modified to full choke patterns at 25 yards depending on the load. Percentages are within the ideal range for .410 performance with small game (squirrel, cottontails), shooting clay targets and even upland hunting at conservative distances. With Foster-type rifled slugs, the non-choked Model 9410 gives very acceptable groups out to 50 yards, ideal for coyotes and other large varmints.

FULL

IMPROVED MODIFIED

MODIFIED

SKEET

THE PATTERNS YOU WANT.

The addition of the Invector™ choke system on Model 9410 shotguns is a step forward in versatility. With the Invector system, you can tailor the shot pattern to meet your needs — be it tight, full choke patterns for tree squirrel or shooting slugs at larger varmints. The patterns shown were fired from 25 yards. (Approximate target size is 20". Actual targets, enhanced for viewing.)

Notes:

Total capacity of the Traditional is 9 or 10 including one in the chamber depending on the loads used.

Total capacity of the Packer is 6 including one in the chamber.

Magazine capacity may be reduced with some brands and types of ammunition.

All models include a magazine adapter which will limit the magazine capacity to two.

(3) = Standard Invector™ Choke System with three choke tubes supplied: Full, Modified and Improved Cylinder.

Non-Invector models: Patterns at 25 yards should be considered approximately "Modified to Full Choke" for .410 shotguns.

Suggested retail prices are in U.S. dollars and are subject to change without notice.

MODEL 9410
**PACKER WITH
INVECTOR™ CHOKES**

The Model 9410 Packer with the Invector™ choke system is a step forward in the evolution of these unique firearms. Made specifically for those who require the additional versatility a choke system provides — in a smaller, lighter package. The Packer features a 20" barrel and three-quarter magazine for a compactness and a feel you'll appreciate on your next squirrel or cottontail hunt. Pistol grip walnut stock and forearm with distinctive end-cap. Easy-to-align TRUGLO® front sight combined with a modified shallow "V" adjustable rear sight allows rapid target acquisition. New tang safety for a classic appearance in the tradition of the Model 94 rifle. Sling posts included.

NEW
TOP-TANG SAFETY

MODEL 9410
PACKER

The Model 9410 Packer is the perfect do-it-all gun. Lightweight and immensely fun to shoot, the Packer features a three-quarter magazine and 20" barrel which is equipped with essentially a cylinder bore choke capable of accurately firing excellent modified- to full-choke equivalent patterns. The Packer also reliably fires Foster-type rifled slugs for hunting larger varmints. Walnut stock and forearm with distinctive end-cap. Easy-to-align TRUGLO® front sight combined with a modified shallow "V" adjustable rear sight for rapid target acquisition. New tang safety. Sling posts included.

NEW
TOP-TANG SAFETY

MODEL 9410
**PACKER COMPACT WITH
INVECTOR™ CHOKES**

With reduced stock dimensions (12½" length of pull), plus light weight and low recoil, the new Model 9410 Packer Compact is the perfect do-it-all firearm for the younger or smaller shooter. Look closely and you'll notice all the features found on the full size models are here: TRUGLO® fiber optic front sight with modified shallow "V" adjustable rear sight, walnut stock and forearm with distinctive end-cap. In addition, you'll find the Invector™ choke system for increased versatility. New tang safety.

NEW

MODEL 9410
TRADITIONAL

The award-winning Model 9410 Traditional shotgun is back — with the addition of a new tang safety for 2003. From the walnut straight grip stock and traditional forearm, the Traditional is designed with the kind of handling and pointability necessary when hunting fast moving game. The 24" smoothbore barrel readily handles all current factory 2½" .410 bore shotgun loads, including Foster-type rifled slugs (for larger varmints). A modified shallow "V" adjustable rear sight is paired with a fiber optic TRUGLO® front sight for fast target acquisition.

NEW
TOP-TANG SAFETY

MODEL 9410
RANGER®

The Model 9410 Ranger® is the award-winning Model 9410 Traditional in a value priced, feature-packed Ranger version. The reliable action and 24" smoothbore barrel readily handles all current factory 2½" .410 bore shotgun loads, including Foster-type rifled slugs and the full-length tubular magazine allows for a full nine shot capacity. The cylinder bore choke produces excellent modified- to full-choke equivalent patterns. Straight grip stock. The TRUGLO® front sight and modified shallow "V" adjustable rear sight for fast target acquisition. New tang safety gives the receiver a classic appearance.

SUPREME[®] SELECT

SUPREME[®] SELECT OVER/UNDER SHOTGUNS REPRESENT THE LATEST IN A LONG LINE OF WINCHESTER SHOTGUNS. EACH MODEL IS CAREFULLY DESIGNED AND CRAFTED IN THE LONG STANDING WINCHESTER TRADITION OF HARD WORKING, RELIABLE DESIGN. THEY ARE THE PERFECT BLEND OF BEAUTY AND UTILITY WITH A FINELY FINISHED, WALNUT STOCK AND FOREARM THAT PUT YOU ON TARGET INSTANTLY. DURABLE STEEL LOCKING AND EJECTION MECHANISMS ARE HOUSED WITHIN A STUDY, LOW-PROFILE RECEIVER. IN ADDITION TO AN OUTSTANDING LEVEL OF REFINEMENT, FOR 2003 EVERY SUPREME SELECT OVER/UNDER SHOTGUN FEATURES AN ALL NEW BARREL DESIGN THAT FEATURES A LIGHTER PROFILE TO PROVIDE A SMOOTH, FLUID SWING WITH IMPROVED BALANCE.

SUPREME[®] SELECT: BETTER BALANCE. FASTER HANDLING.

NEW

THE THREE SUPREME[®] SELECT MODELS ARE THE NEXT GENERATION IN WINCHESTER OVER/UNDER SHOTGUN CRAFTSMANSHIP. AT FIRST GLANCE, YOU SEE EVERYTHING YOU WOULD EXPECT IN A FINE OVER/UNDER, BUT CLOSER INSPECTION REVEALS A LEVEL OF WORKMANSHIP, FIT AND FINISH USUALLY RESERVED FOR FIREARMS THAT COST MUCH MORE. A THROW TO THE SHOULDER AND YOU ARE QUICK TO REALIZE THAT BALANCE IS THE BEST FEATURE OF THE NEW SUPREME SELECT MODELS. THE ALL NEW LIGHTER BARRELS, COUPLED WITH THE LOW PROFILE RECEIVER AND WELL-EXECUTED STOCK, IS DESIGNED TO PUT YOU ON TARGET INSTANTLY AND SWING EFFORTLESSLY. SUPREME SELECT SHOTGUNS LOOK, FEEL AND ARE READY FOR YEARS OF HARD USE.

TRADITIONAL ELEGANCE THE SUPREME® SELECT WAY.

The functional low profile receiver of the Supreme® Select Elegance lends itself as the perfect foundation for an elegant engraving pattern. This delicate engraving, when combined with the grayed receiver, creates a stunning, old-world look meant to be appreciated for years to come.

BACKBORED

SUPREME® SELECT
ELEGANCE

The new 2003 Supreme® Select Elegance represents the culmination of Winchester shotgun heritage and technology. Incorporating both stunning looks and performance, it is designed to be at home on both the range and in the field. The grayed, low profile receiver with dual locking pin design balances exceptionally in the hands and contrasts starkly with the newly designed, deeply blued barrels. The new barrel design features a lighter profile to provide better balance and more responsive swing. The stock and forearm are designed to naturally come to the shoulder like an extension of your body and are crafted from gorgeously finished and checkered Grade III walnut. A hard buttplate accents the classic look of the stock. Back-bored barrels and the Invictor-Plus™ choke system ensure the shot patterns you require. 3" chrome plated chambers. 26" and 28" barrel options.

NEW

BACKBORED

SUPREME® SELECT
FIELD

With newly designed barrels that feature an improved, lighter contour for better balance and a more responsive swing, the Field is the workhorse of the Winchester Supreme® Select line-up. The engraved receiver and barrels are richly blued, and the finely crafted walnut stock and tapered forearm have been precisely calculated to put you on target the instant you snap the gun to your shoulder. The low profile receiver houses heavy-duty ejectors and dual, tapered locking lugs designed to independently adjust for wear. 3" chrome plated chambers ensure durability and long life. The safety doubles as a barrel selector.

SEE SPECIFICATIONS ON PAGE 29.

REFINEMENT IN THE WINCHESTER TRADITION.

THE NEXT GENERATION WINCHESTER OVER/UNDER SHOTGUN IS THE SUPREME® SELECT SPORTING. COMPETITIVE SHOOTERS WILL READILY APPRECIATE THE SMOOTH, BALANCED SWING AFFORDED BY THE ALL NEW, LIGHTER BARREL PROFILE. IN ADDITION TO BEING LIGHTER, THE BARRELS ARE PORTED TO SIGNIFICANTLY REDUCE RECOIL, BACK-BORED FOR REDUCED SHOT DEFORMATION AND FEATURE THE VERSATILE PROPERTIES OF THE INVECTOR-PLUS™ CHOKE TUBE SYSTEM — ALL STANDARD FARE ON THE NEW SUPREME SELECT SPORTING. NOTICE THE STARKLY CONTRASTING CHROME-ON-MATTE FINISH OF THE REFINED, LOW PROFILE RECEIVER. OPEN THE ACTION AND REVEAL A RELIABLE, DUAL-LUG LOCK-UP — CAPABLE OF WITHSTANDING YEARS OF PRACTICE AND COMPETITION. THE FINELY CRAFTED, SATIN-FINISHED WALNUT STOCK AND SCHNABEL FOREARM HAVE BEEN PRECISELY CALCULATED TO COME TO THE SHOULDER EFFORTLESSLY AND PUT YOU ON TARGET INSTANTLY.

NEW

INVECTOR-PLUS™ CHOKE SYSTEM.

The Invector-Plus™ system found on Supreme® Select shotguns is the same choke system found on today's leading sporting and hunting guns world-wide. The longer tubes, when combined with back-bored barrels, reduce shot deformation and produce tight, consistent patterns throughout the entire choke spectrum. Additional tubes are available for fine tuning your patterns to accommodate varying shooting situations.

**SUPREME® SELECT
SPORTING**

When your competitors start to heat up, you can count on the Winchester Supreme® Select Sporting to keep you in the game. Every aspect of the Sporting has been executed in the name of competition, from the all new, lightweight barrels down to the rounded recoil pad heel. Within the bi-tone, low profile receiver you'll find rugged ejectors and dual, tapered locking lugs designed to independently adjust for wear. A third, fixed lug is designed to reduce recoil-induced wear. The beautifully crafted and sharply checkered stock and forearm are designed to interface perfectly with the shooter and an adjustable trigger shoe system easily customizes length of pull. 2¾" chrome plated chambers. 28" and 30" barrel options.

STRENGTH IS IMPORTANT.

Supreme® Select shotguns feature dual, tapered locking lugs positioned along the lower sides of the top barrel. These lugs are made to stay tight and independently adjust to normal wear through heavy use. Our lugs are larger and stronger than those found on many of the competition's guns. Under the barrels is a third, fixed lug designed to reduce recoil-induced wear on components such as the hinge system.

TAKE A SUPER X2 WITH YOU AND LEAVE YOUR EXCUSES AT HOME.

IN A SHOOTOUT FEATURED IN *FRONT SIGHT* MAGAZINE (Nov./Dec. 2001), THE WINCHESTER SUPER X2 FIRED FIVE ROUNDS IN JUST OVER $\frac{1}{2}$ OF A SECOND — .51 TO BE EXACT — MAKING IT THE FASTEST SHOTGUN IN THE WORLD. WHILE YOU MAY NEVER NEED TO PULL THE TRIGGER THAT FAST, YOU WILL CERTAINLY APPRECIATE THE OTHER ADVANTAGES OF THE AWARD WINNING SUPER X2 ACTION. THE SIMPLE, GAS-OPERATED DESIGN REDUCES RECOIL FOR FASTER FOLLOW-UP SHOTS AND MORE COMFORTABLE SHOOTING. IT'S RELIABLE IN ALL WEATHER CONDITIONS, MEANING A SUPER X2 WILL WORK WHEN OTHER GUNS WON'T. ALL THIS, PLUS EXTREME LOAD VERSATILITY — RELIABLY FIRING LIGHT TO MAGNUM LOADS — MEANS THE SUPER X2 NEVER MISSES A BEAT.

VERSATILITY FOR THE LOADS YOU SHOOT.

3½" SX2 shotguns handle the full-range of factory field loads from 2¼" (1½ oz.) field loads to massive 3½" magnum loads. Plus the benefit of reduced recoil only possible with a gas-operated autoloader. (Not shown actual size.)

SUPER X2 SHOTGUNS FEATURE AN ADVANCED, YET SIMPLE GAS OPERATION SYSTEM TO ENSURE RELIABILITY WITH ANY LOAD, UNDER ANY CIRCUMSTANCE. A SHORT, ALL-ALLOY RECEIVER KEEPS WEIGHT TO A MINIMUM WHILE MAINTAINING EXCEPTIONAL BALANCE. THE BACK-BORED BARREL FEATURES THE PROVEN INVECTOR-PLUS™ CHOKE SYSTEM AND IS DESIGNED WITH A WIDE RIB FOR BETTER TARGET ACQUISITION. BOTH THE 3" AND 3½" MODELS ARE AVAILABLE WITH TOUGH, WEATHER-RESISTANT COMPOSITE STOCKS AND FOREARMS. ALL THESE FEATURES TRANSLATE DIRECTLY INTO THE MOST RUGGED, MOST RELIABLE AUTOLOADING SHOTGUNS AVAILABLE.

SHOWN: 3½" GREENHEAD

DURA-TOUCH™

Armor Coating

BUILDING ON THE SUCCESS OF THE SUPER X2 GREENHEAD, FOR 2003, WE HAVE ADDED THE RUGGED DURA-TOUCH™ ARMOR COATING FINISH TO EVEN MORE SUPER X2 SHOTGUNS. DURA-TOUCH IS A UNIQUE SURFACE TREATMENT APPLIED TO THE STOCK AND FOREARM OF THE SHOTGUN. WHEN TREATED, THE GUN HAS A SOFT, ALMOST VELVETY FEEL THAT IS INCREDIBLY TACTILE WITHOUT BEING STICKY. WITH DURA-TOUCH, THE GRIP AND OVERALL "FEEL" OF THE FIREARM IS DRAMATICALLY ENHANCED IN ALL WEATHER CONDITIONS AND ACROSS A BROAD RANGE OF TEMPERATURES. ADDITIONALLY, DURA-TOUCH IS EXTREMELY DURABLE TO PROTECT THE FINISH OF CAMO GUNS. HEAD DOWN TO YOUR WINCHESTER DEALER AND CHECK OUT DURA-TOUCH FOR YOURSELF AND FEEL THE DIFFERENCE IT CAN MAKE. DURA-TOUCH IS ON THE NEW SUPER X2 SIGNATURE RED, UNIVERSAL HUNTER TURKEY AND FIELD MODELS, NWTf TURKEY, 3½" COMPOSITE MODELS (MOSSY OAK® SHADOW GRASS™ AND BLACK VERSIONS), PRACTICAL MK II, 3½" GREENHEAD AND THE MODEL 70 WSM IN NEW MOSSY OAK® BREAK-UP™ (SEE PAGE 9).

MUDDY SWAMPS, ICED-OVER LAKES AND DRY, DUSTY DESERTS DON'T SEEM LIKE FUN PLACES. GAME BIRDS SURE SEEM TO ENJOY THEM THOUGH. THAT MEANS THOSE ARE THE LOCATIONS YOU'RE HEADED FOR AND YOU NEED TO TAKE THE BEST GEAR WITH YOU, GEAR YOU TRUST. AND, ARGUABLY, THE GUN YOU CHOOSE TO BRING ALONG IS THE MOST IMPORTANT DECISION YOU'LL MAKE. CHOOSE A WINCHESTER SUPER X2. AFTER ALL, THEY'RE THE GUNS THAT WORK. WITH A SIMPLE GAS-OPERATING SYSTEM, YOU CAN COUNT ON A SUPER X2 TO FUNCTION WHEREVER YOU HUNT AND, WITH EXTREME LOAD VERSATILITY, YOU SHOOT THE LOADS YOU WANT FOR THE BIRDS YOU'RE AFTER.

RELIABILITY IN THE TOUGHEST CONDITIONS.

SHOWN: SX2 3" COMPOSITE

SUPER X2

3½" MOSSY OAK® SHADOW GRASS™

The shotgun made specifically for waterfowl hunters. The 3½" Mossy Oak® Shadow Grass™ Super X2 features a weather-proof composite stock and forearm treated with the grip enhancing Dura-Touch™ armor coating finish and installed sling swivel studs. The ventilated rib barrel is back-bored and incorporates the Invector-Plus™ interchangeable choke system for the shot patterns you demand. Reliably shoots all factory field loads from 2¾" (1½ oz.) to 3½" magnums.

SUPER X2

3½" COMPOSITE

Wrapped in a sleek, low luster black finish, the Super X2 3½" Composite is built to perform in the worst conditions. The reliable Super X2 3½" action is built to shoot factory field loads from light 2¾" (1½ oz.) to heavy 3½" magnums, thanks to efficient gas operation. For 2003, the Dura-Touch™ armor coating finish is standard on the rugged composite stock and forearm. The 3½" Composite uses a back-bored, Invector-Plus™ ventilated rib barrel with a white front bead sight. Sling swivel studs included.

SUPER X2

3" COMPOSITE

From the reliable gas operating system to the rugged black composite stock and forearm to the low luster finish on exposed metal surfaces, the 3" Super X2 Composite is pure utility. The simple gas-operated action allows you to shoot the heaviest factory 3" magnums, light 2¾" (1 oz.) field loads and everything in between. The gas operation also reduces recoil and allows for unbelievably fast follow-up shots. Sling swivel studs included.

SUPER X2 GREENHEAD 3 1/2" COMPOSITE

Sure, you can buy a shotgun for duck hunting, but the Greenhead is THE shotgun for duck hunting. Take the proven reliable Super X2 3 1/2" action, add a 28" Invictor-Plus™ ventilated rib barrel fitted with a white front bead. Add a composite stock and forearm treated with Dura-Touch™ in the symbolic "Greenhead" finish and mallards won't be scared, they'll be jealous. Three choke tubes and sling swivel studs included.

SUPER X2 UNIVERSAL HUNTER FIELD

Versatile, fast, reliable ... these words sum up the all-purpose Universal Hunter Field. Clad in New Mossy Oak® Break-Up™ camo, it is built to hunt waterfowl, upland game and even shoot clay targets in the most severe conditions, thanks to the award winning, gas-operated Super X2 action. The composite stock and forearm is coated with Dura-Touch™. 26" barrel. Three Invictor-Plus™ choke tubes included. Sling swivel studs standard. The Universal Hunter Field sets the standard for multi-use shotguns.

SUPER X2 3" FIELD WALNUT

Take the reliable, extremely fast Super X2 3" action, match it with a walnut stock and you have a classic looking autoloader built to perform — whether you are after real or clay birds. The 3" Field features a satin finished walnut stock and forearm mated with a deeply blued receiver and barrel. The backbored barrel with ventilated rib is available in both 26" and 28" versions and includes three choke tubes.

**FAST ACTION.
FAST POINTING.
FAST FOLLOW-UP
SHOTS.**

THANKS TO THE NATIONAL WILD TURKEY FOUNDATION, THE TURKEY POPULATION IN THE UNITED STATES HAS GROWN DRAMATICALLY. IN OUR CONTINUED EFFORT TO SUPPORT THE NWTf, A PORTION OF THE PROCEEDS OF EVERY "TEAM NWTf" SUPER X2 3½" AUTOLOADER SOLD GOES DIRECTLY TO THE NWTf. COINCIDENTALLY, THE "TEAM NWTf" MODELS ARE THE MOST POPULAR WINCHESTER TURKEY AUTOLOADERS EVER. THE FOUNDATION OF THE SUPER X2 IS THE PROVEN GAS-OPERATED ACTION DESIGNED FOR FAST FOLLOW-UP SHOTS AND TO REDUCE RECOIL. THE SUPER X2 ALSO ALLOWS THE FREEDOM TO SHOOT MAGNUM HUNTING LOADS AND LIGHT PRACTICE LOADS INTERCHANGEABLY. 24" VENTILATED RIB BARRELS ENSURE THAT SUPER X2 TURKEY GUNS ARE LIGHTNING FAST IN HEAVY COVER WHERE TURKEY CONGREGATE. THREE DOT, TRUGLO® FIBER OPTIC SIGHTS GET YOU ON TARGET FAST IN LOW LIGHT CONDITIONS. THE UNIVERSAL HUNTER TURKEY IS THE MOST VERSATILE SUPER X2 EVER WITH ALL THE FEATURES NECESSARY FOR PRACTICE, UPLAND, WATERFOWL AND TURKEY SEASONS.

NEW TRUGLO® SIGHTS.

The Super X2 Universal Hunter Turkey and Model 1300 Universal Hunter Turkey include new sights from TRUGLO®. These sights have been designed with unmatched durability as a key feature with a new, all metal base for both the front and rear sight and new Superflex® fiber optics for extra durability and better light gathering. The rear sight is easily adjustable for both windage and elevation. In addition, the sights are simple to install and remove as your needs — and the seasons — change.

**FOLDING REAR SIGHT
SX2 CANTILEVER DEER**

**SUPER X2
UNIVERSAL HUNTER TURKEY**

The most versatile, reliable autoloader ever, the Universal Hunter Turkey is ready to meet your every shotgun hunting need. A 26" barrel with Extra-Full Invector-Plus™ Turkey choke tube, plus three field Invector-Plus™ tubes and easily removable TRUGLO® sights make it ideal for everything from turkey to quail and everything in between. All New Mossy Oak® Break-Up™ camo with the protective Dura-Touch™ finish on the composite stock and forearm. Sling swivel studs standard. The receiver is drilled and tapped for mounting a scope or red dot type sight.

**SUPER X2
NWTf TURKEY 3½"**

The ultimate shotgun for gobblers is the Super X2 NWTf Turkey. Resplendent in New Mossy Oak® Break-Up™ and featuring Dura-Touch™ on the composite stock and forearm. A 24" barrel with Extra Full Extended Invector-Plus™ Turkey choke tube is standard. Reliable gas operation for reduced recoil and fast follow-up shots. Shoots all factory field loads from 2¼" (1½ oz.) to the heaviest 3½" magnum loads. Sling swivel studs standard. Durable, screw-on type three-dot TRUGLO® sights. The receiver is drilled and tapped for mounting a scope or red dot type sight. Authorized and endorsed by the National Wild Turkey Federation.

SUPER X2

SHOWN: SX2 NWTF
TURKEY 3 1/2"

SUPER X2
CANTILEVER DEER

The maneuverable, 22" fully rifled barrel of the Cantilever Deer Super X2 handles slugs or sabots with excellent accuracy. The unique cantilever design allows you to aim with the rear adjustable sight using the TRUGLO® fiber optic front sight. Or, you can fold down the rear sight and instantly sight down the lengthwise groove in the cantilever for quick, close action. You can easily fasten a red dot or conventional scope to the cantilever. The low luster black finish aids in concealment while the black, composite stock is impervious to all weather conditions. (Scope not included.)

WINCHESTER PROUDLY SUPPORTS THE NWTF.

So can you. With your purchase of a Winchester National Wild Turkey Federation (NWTF) Turkey shotgun, you support the most important turkey conservation organization in the world. No group does more to expand and protect habitat and increase hunting opportunities across North America. With your new NWTF gun, you receive the opportunity to join the NWTF and receive a special NWTF hat, video and six-issue subscription to Turkey Call magazine.

EXTRA FULL TURKEY TUBE.

A turkey gun is only as good as its tightest pattern. Super X2 NWTF Turkey guns include an Invector-Plus™ Extra-Full Turkey choke tube for extremely tight patterns. Invector-Plus tubes are featured on the best selling target guns in the world because of their consistent, tight patterns. And the Invector-Plus Extra Full Turkey tube is the tightest shooting choke tube in the Winchester Invector-Plus lineup. Not only are patterns tight overall, but core densities are specifically configured for turkey hunting. (Appearance may vary.)

SX2

SUPER X2'S ARE THE GUNS THAT WORK, WHICH MEANS THEY ARE THE PERFECT CHOICE FOR COMPETITION SHOOTING. WHETHER IT'S SPORTING CLAYS OR THREE-GUN PRACTICAL COMPETITIONS, SHOOTING IS A SERIOUS SPORTING EVENT WITH A HEALTHY FINANCIAL AND TIME INVESTMENT FROM YOU. THAT'S WHY THERE IS A RELIABLE SUPER X2 DESIGNED FOR YOUR SPECIFIC NEED. THE SUPER X2 SPORTING CLAYS GUNS ARE SPECIALIZED GUNS THAT ARE A NATURAL PROGRESSION INTO FIELD-BASED SHOOTING SPORTS. SX2 PRACTICAL GUNS ARE THE PERFECT CHOICE FOR SHOOTING COMPETITIONS WHERE HUNDREDTHS OF A SECOND ARE THE DIFFERENCE BETWEEN VICTORY AND DEFEAT.

**YOUR GUN
SHOULDN'T BE
YOUR COMPETITION.**

SHOWN: WALNUT
SPORTING CLAYS

SPORTING CLAYS MODELS STOCK ADJUSTMENT.

Sporting Clays shooters will appreciate the ability to use our spacer system (set of shim spacers included — drop and cast) to adjust stock dimensions for a more customized fit.

THE SPORTING CLAYS MODELS INCLUDE TWO PISTONS FOR EXTREME LOAD VERSATILITY:

One for heavy target up to heavy 3" magnum field loads, and one for virtually all factory target loads down to 1/8 oz.

SUPER X2
SIGNATURE RED SPORTING

The new Super X2 Signature Red Sporting Clays is designed specifically for the serious sporting clays contender. The foundation is the Super X2 3" action which is proven to be both fast and reliable in the most demanding circumstances. Dura-Touch™ armor coating enhances the feel of the gun and improves grip while protecting the red finish that is all Winchester. The specially designed Dura-Touch™ finished hardwood stock is shim adjustable for a custom fit. Five choke tubes are included plus two gas pistons to cover the extremes of sporting ammunition loads.

SUPER X2
WALNUT SPORTING

Whether for serious competition or simple enjoyment, the Super X2 Sporting Clays is the right gun for sporting clays. Built around the reliable, lightning fast Super X2 3" action, the Sporting Clays features a specially designed, shim adjustable stock for a custom fit. The low luster finish of the receiver and Invector-Plus™ ventilated rib barrel reduces glare and compliments the satin finish of the walnut stock and forearm. Importantly, two gas pistons are provided to cover the extremes of factory ammunition loads. Five choke tubes give you the patterns you want for any situation you encounter.

SUPER X2 PRACTICAL MK I

WHEN YOU WANT TO WIN, YOU WANT THE FASTEST SHOTGUN IN THE WORLD.

Out of the box, the SX2 Practical MK I (Mark I) has the features and performance to rock the competition's world. The Super X2 3" action is proven fast — five shots in .51 of a second — while taming recoil to help get those five shots on target. In addition, the MK I features 22" barrel, 8-round extended magazine tube with titanium nitride treatment to eliminate wear, plus a black composite stock and forearm. Features the Standard Invector™ choke system for top performance with slugs. Ready for USPSA Limited Division competition right from the box.

SUPER X2 PRACTICAL MK II

If competition is in your nature, the SX2 Practical MK II (Mark II) has arrived. This nimble handling shotgun is built around the Super X2 3" action for unequalled speed and reliability plus reduced recoil to put you back on target fast. Dura-Touch™ armor coating improves the grip and feel of the black composite stock and forearm. Easily removed LPA ghost-ring type rear sight mounts to a newly designed cantilever while the LPA front sight is highly protected. Features a 22" barrel, 8-round extended magazine tube and Standard Invector™ choke system.

MODEL 1300

3 SHOTS: .56 OF A SECOND ... THOSE NUMBERS SUM UP THE WINCHESTER SPEED PUMP™ LINE OF SHOTGUNS. THOUGH YOU MAY NOT CARE TO SHOOT AS FAST AS OUR R&D SHOOTERS, YOU'LL STILL GET FOLLOW-UP SHOT SPEED YOU'LL APPRECIATE. SPEED PUMP SHOTGUNS ARE RENOWNED FOR IMPRESSIVE FOLLOW-UP SHOT SPEED THANKS TO INERTIA-ASSISTED PUMPING FROM A PROVEN ROTARY BOLT SYSTEM. LIGHTWEIGHT ALLOY RECEIVERS ALSO PROVIDE SUPERB BALANCE FOR EXCEPTIONALLY FAST HANDLING AND SHOULDERING PROPERTIES THAT OTHER PUMP ACTION SHOTGUNS SIMPLY CAN'T MATCH. IN 2003, THERE'S A SPEED PUMP BUILT TO EXCEL FOR EVERY HUNTING SITUATION, AND FEATURING THE PROVEN WINCHOKE® THREADED CHOKE TUBE SYSTEM (EXCEPT RIFLED MODELS).

SPEED PUMP™: FOLLOW-UP SHOT SPEED YOU CAN APPRECIATE.

TRUGLO® TRU-BEAD™ SIGHT.

SPEED PUMP
MODEL 1300
SPORTING/FIELD

It makes sense to shoot the same gun on the target range and in the field. Fortunately, the Model 1300 Sporting/Field excels at both. It features a comfortable Pachmayr® Decelerator™ recoil pad and five WinChoke® tubes to accommodate any situation, plus a TRUGLO® TRU-BEAD™ front sight with interchangeable fiber optic inserts in different colors and a mid bead for fast target acquisition. A satin-finished walnut stock and forearm complete this versatile package. A Compact model is also available (page 21) for smaller shooters.

SPEED PUMP
MODEL 1300
WALNUT FIELD

The Walnut Field is a stalwart of the Winchester Model 1300 line. Versatile and supremely reliable, the 12 gauge Walnut Field will handle any chore dependably, and because it's a Speed Pump™, you can bet it will get the job done fast. The satin-finished walnut stock and forearm features cut checkering and blends perfectly with the gloss-finished receiver and contrasting bolt finish. The ventilated rib barrel utilizes the WinChoke® threaded choke system and is available in 26" and 28" versions.

12 & 20 GAUGE
SPEED PUMP
MODEL 1300
UNIVERSAL HUNTER FIELD

A gun designed to hunt in all conditions ... and hunt hard. In addition to the smooth and reliable Speed Pump™ action, the Universal Hunter Field features a durable finish in all New Mossy Oak® Break-Up™ camo, a 26" ventilated rib barrel with WinChoke® tubes included, and a composite stock and forearm with magazine cap and stock sling studs standard. The Universal Field is easily ready for whatever you are hunting with the addition of the right choke tube. The drilled and tapped receiver will readily accept a scope or red dot sight.

SEE SPECIFICATIONS ON PAGE 45

SHOWN: SPORTING/FIELD

SPEED PUMP™

It's all in the details. New for 2003, the Speed Pump™ logo is engraved into the receiver of every Winchester Model 1300 shotgun.

MODEL 1300
UPLAND SPECIAL

Begin with the proven fast Speed Pump™ action, add an English style straight grip stock and compact 24" vent rib barrel and you have the Model 1300 Upland Special. Designed to be fast handling and accurate, there has never been a more maneuverable Model 1300. The Upland Special features a slim, satin-finish cylinder-style forearm that moves your hand closer to the bore centerline for better balance and features a 3" chamber with polished bolt. Choose from 12 or 20 gauge models both featuring the WinChoke® system as standard equipment.

MODEL 1300
BLACK SHADOW® FIELD

The Black Shadow® is the workhorse of the Speed Pump™ line, purposely built to withstand the roughest, worst weather conditions imaginable. The virtually indestructible composite stock and forearm are coupled with a non-glare black finished ventilated rib barrel and receiver. WinChoke® threaded chokes are 100% steel, tungsten, bismuth and lead shot compatible. 12 gauge or 20 gauge models available.

MODEL 1300
RANGER®

The Ranger® Speed Pump™ is one of the world's most popular field guns for good reason. It has all the features necessary in a field shotgun: speed, reliability, balanced handling and strength with a practical, good-looking satin-finished hardwood stock and forearm. The dependable WinChoke® system is standard in the ventilated rib barrel. Shoots all factory 2¾" and 3" magnum loads. 12 gauge or 20 gauge models available. A Ranger Compact model is also available, see page 21.

MODEL 1300

SPEED, BALANCE AND HANDLING — MUST BE A SPEED PUMP™.

WHEN YOU'RE DEER HUNTING, SPEED IS EVERYTHING. THE SPEED OF THE GUN TO THE SHOULDER, THE SPEED OF ACQUIRING THE TARGET, THE SPEED OF PULLING THE TRIGGER AND THE SPEED OF CHAMBERING THE NEXT ROUND. WINCHESTER MODEL 1300 DEER GUNS ARE PERFECT TO QUENCH YOUR NEED FOR SPEED. THANKS TO AN INERTIA-ASSISTED, SPEED PUMP™ ROTARY BOLT ACTION WHICH ALLOWS FOR FAST FOLLOW-UP SHOTS — THREE IN ABOUT A HALF A SECOND — THE MODEL 1300 IS A DEFINITE ADVANTAGE WHEN YOU ARE HUNTING FAST-MOVING TARGETS IN DENSE COVER. COMPACT, 22" BARRELS OFFER SUPERIOR MANEUVERABILITY AND ACCURACY AND ARE AVAILABLE IN BOTH SMOOTHBORE AND RIFLED MODELS. ALLOY RECEIVERS PROVIDE EXCELLENT BALANCE AND LIGHTER CARRY WEIGHT AND ARE DRILLED AND TAPPED FOR MOUNTING A SCOPE. THE STOCK DIMENSIONS ARE DIALED TO PUT YOU ON TARGET THE INSTANT YOU BRING THE GUN TO YOUR SHOULDER. DURABLE FINISHES AID CONCEALMENT TO HELP YOU GET IN CLOSE FOR THE SHOT YOU WANT.

MODEL 1300
NWTf BUCK AND TOM

For both deer and turkey, the Buck and Tom is what you want in a shotgun, starting with a rugged composite stock and forearm, fully covered in all New Mossy Oak® Break-Up™ camo. The smooth bore 22" barrel includes adjustable TRUGLO® fiber optic sights. For deer, use the extended rifled choke tube and sabot slugs. For turkey, use the Hi-Density WinChoke® Extra Full Turkey tube. The receiver is drilled and tapped for mounting a scope or red dot type sight. Authorized and endorsed by the National Wild Turkey Federation.

SEE SPECIFICATIONS ON PAGE 45

SLUG ACCURACY.

Whether you choose to shoot sabots (shown below) with the rifled tube or fully rifled barrel or Foster-type slugs in a smoothbore barrel, you can expect an effective level of accuracy. (Actual target, sabot at 50 yds.)

SPEED PUMP™ INERTIA-ASSISTED PUMPING.

With some of the competition's guns, you pay a premium price for a rotary bolt system. We've perfected the design, and our shotguns have been using a rotary bolt for decades. The rotary bolt design of the Model 1300 Speed Pump is the key to tight lockup and uncommon strength. It's also the reason you get inertia-assisted pumping for amazingly fast follow-up shots.

SHOWN: BLACK SHADOW CANTILEVER

MODEL 1300
RANGER® DEER

All the great features: speed, reliability, balanced handling and strength plus the superb value you've come to appreciate from the field model Ranger® shotgun in a new deer version. A 22" rifled barrel accurately fires sabot slugs (12 gauge). Drilled and tapped receiver for mounting a scope. Rugged, good-looking satin-finished hardwood stock and forearm. Adjustable TRUGLO® rifle sights provide excellent low-light target acquisition. Also available in a Compact model for smaller shooters (page 21).

MODEL 1300
BLACK SHADOW® DEER

A hard-working, no-nonsense shotgun in two versions to choose from — both with a 22" barrel. A smoothbore barrel model for Foster slugs and buckshot (Improved Cylinder WinChoke® supplied, 12 gauge only) or the rifled barrel model for shooting sabot slugs (available in 12 or 20 gauge). The receiver is drilled and tapped for mounting a scope. Rugged composite stock and forearm with a non-glare finish on exposed surfaces. Adjustable rifle sights. Sling swivel posts. 12 gauge rifled barrel model is also available in a combo that includes both the rifled barrel and a 28" vent rib field barrel.

MODEL 1300
BLACK SHADOW® CANTILEVER

The entire line of Winchester Black Shadow® shotguns has a long standing reputation for toughness. With a sturdy cantilever scope mount and fully rifled 22" barrel, they now have a reputation for excellent accuracy as well. The cantilever keeps the scope connected directly to the barrel, ensuring the scope stays sighted in. This also allows the shotgun to easily be taken down for cleaning without compromising accuracy. 12 gauge only. (Scope not included.)

MODEL 1300

HUNTING TURKEYS PLACES SPECIAL DEMANDS ON A SHOTGUN. YOUR SHOTGUN OF CHOICE SHOULD HELP YOU HIDE WITH A DURABLE CAMO FINISH AND HELP YOU SEE WITH SIGHTS DESIGNED FOR LOW LIGHT CONDITIONS. AND, BECAUSE YOU GENERALLY ONLY GET ONE SHOT AT A GOBBLER, THAT GUN MUST BE ACCURATE. HOWEVER, IF YOU DO GET THE CHANCE FOR A SECOND SHOT, YOUR GUN HAD BETTER BE FAST AS WELL. FORTUNATELY, EVERY MODEL 1300 SPEED PUMP™ TURKEY GUN HAS EXACTLY WHAT HUNTERS WANT, RIGHT DOWN TO THE NEW MOSSY OAK® BREAK-UP™ CAMOUFLAGE FINISH, TRUGLO® SIGHT SYSTEMS AND INERTIA-ASSISTED, ULTRA-FAST ROTARY BOLT.

SHOWN: NWTF SHORT TURKEY

MODEL 1300 **NWTF SHORT TURKEY**

The ultimate turkey choke tube, the Extra-Long, Extra Full Extended Turkey tube is made to shoot extremely tight patterns.

MODEL 1300 **NWTF BUCK AND TOM**

With both turkey and rifled sabot choke tubes. (Shown also on page 40.)

BECAUSE OF OUR ONGOING COMMITMENT TO THE EFFORTS OF THE NATIONAL WILD TURKEY FEDERATION (NWTF), WINCHESTER TURKEY GUNS FEATURE A NEW "TEAM NWTF" GRIP CAP AND INCLUDE A SPECIAL HANG TAG OFFERING YOU AN NWTF HAT, VIDEO AND A SIX-MONTH *TURKEY CALL* MAGAZINE SUBSCRIPTION WHEN YOU JOIN THE NWTF.

**TURKEYS ARE FAST.
SPEED PUMPS™
ARE FASTER.**

TRUGLO

MODEL 1300 **UNIVERSAL HUNTER TURKEY**

*Removable sights and complete choke selection.
The do-anything Winchester Speed Pump™.*

TOP TURKEY PATTERNS.

Winchester has extended turkey tubes for the tightest, most effective patterns possible. (Actual target, 30 yards with Hi-Density Extra-Full Turkey tube.)

SEE SPECIFICATIONS ON PAGE 45

MODEL 1300

NWTF SHORT TURKEY

The Model 1300 Short Turkey is purpose-built to hunt in heavy cover. A compact 18" barrel and Extra-Long, Extra-Full Extended Turkey tube provides extremely tight patterns. A rugged composite stock and forearm, fully covered in New Mossy Oak® Break-Up™ camo with magazine cap and stock sling studs is standard. Adjustable TRUGLO® fiber optic sights are included and the receiver is drilled and tapped for mounting a scope or red dot type sight. Features the NWTF medallion on the grip cap. The most specialized turkey gun ever.

MODEL 1300

NWTF BUCK AND TOM

This versatile shotgun truly excels for hunting both turkey and deer. The Buck and Tom receives a full treatment of the all New Mossy Oak® Break-Up™ camo for maximum concealment and the maneuverable 22" barrel features adjustable TRUGLO® fiber optic sights. Heavy-duty composite stock and forearm. For turkeys, use the Hi-Density WinChoke® Extra-Full Turkey tube; for deer, the extended rifled tube with sabot slugs. Drilled and tapped receiver for mounting a scope or red dot type sight. Features the NWTF medallion on the grip cap.

MODEL 1300

UNIVERSAL HUNTER TURKEY

Turkeys, ducks, pheasants ... with the proven Model 1300 rotary bolt action and a list of accessories a mile long, versatile is the best word to describe this latest Speed Pump™. The Universal Hunter Turkey features a durable New Mossy Oak® Break-Up™ finish and 26" ventilated rib barrel with Extra-Full Turkey, improved cylinder, modified and full WinChoke® tubes included. Drilled and tapped receiver. Easily removable TRUGLO® three dot sights. Durable composite stock and forearm with magazine cap and stock sling studs standard.

MODEL 1300

MODEL 1300 DEFENDER SERIES SPEED PUMPS™ ARE TRULY MULTI-PURPOSE SHOTGUNS, EACH WITH A SOLID REPUTATION FOR TOUGHNESS AND OUTSTANDING RELIABILITY. WHETHER YOU'RE BACKPACKING DEEP IN THE WOODS OR BOATING THE COASTAL WATERS, THERE IS A MODEL 1300 DEFENDER JUST RIGHT FOR THE SITUATION. PREFERRED BY EXPERIENCED GUIDES IN THE HABITAT OF DANGEROUS GAME, THEY ARE LIGHTWEIGHT, EASY TO PACK AND QUICK TO THE SHOULDER. WHETHER YOU CHOOSE TO USE A MODEL 1300 DEFENDER WHEN CAMPING OR FOR THE OCCASIONAL GROUSE, DEER OR VARMINT HUNT, YOU CAN BE CERTAIN YOU ARE BUYING QUALITY.

DEFENDER SERIES. SECURITY WHEN YOU NEED IT.

MODEL 1300
CAMP DEFENDER

With an accurate 22" barrel, adjustable open sights, satin-finished hardwood stock and forearm, and versatile Winchoke® system, the Model 1300 Camp Defender is a true jack-of-all-trades. It's perfect for camping in bear country or an occasional grouse hunt. For deer hunting, the Camp Defender can accurately fire Foster slugs or sabots when using the WinChoke rifled choke tube (available separately). Eight round magazine.

Pistol Grip supplied with Defender 8-Shot Combo.

MODEL 1300
DEFENDER 8-SHOT

The Defender 8-Shot is easy to pack and carry, making it a great all-around camp gun. With an eight-shot magazine capacity and 18" cylinder choke barrel, the Defender handles buckshot and rifled slugs easily. Non-glare metal surfaces and composite stock and forearm. Choose the full stock version with removable front TRUGLO® fiber optic sight, the pistol grip model or combo version with both pistol grip and full stock included.

MODEL 1300
COASTAL MARINE

With a nickel-plated stainless steel barrel, corrosion resistant, anodized aluminum alloy receiver and key parts that are plated for corrosion resistance, the Coastal Marine is naturally very popular in saltwater environments. Specifically, the coastal bear country of Alaska where lesser guns simply waste away. 18" barrel length with cylinder bore choke. Eight-shot magazine capacity. Sling swivel studs included. Removable front TRUGLO® fiber optic sight.

Notes:

1. All Non-Defender Model 1300's have a Total Shot Shell Capacity of 5 including one in the chamber. Defender Models have a Total Shot Shell Capacity of 8, subtract one for 3 inch shells in all Defender Models. 2. All WinChoke® equipped guns are supplied with a special spanner wrench for removing and installing choke tubes. 3. All Model 1300's (except Defender models) supplied with a removable plug that limits magazine capacity to two shells.
4. Checkering patterns may be subject to change. 5. Suggested retail prices are in U.S. dollars and are subject to change without notice.

EVEN THE BEST CAN BECOME EVEN BETTER.

WHAT COULD BE ANY BETTER THAN A WINCHESTER RIFLE? A CUSTOM WINCHESTER. AT THE WINCHESTER CUSTOM SHOP, WE USE MORE THAN 170 YEARS OF COMBINED EXPERIENCE TO MAKE THE BEST RIFLES EVEN BETTER. SELECT FROM EITHER THE MODEL 70 OR MODEL 94 CUSTOM VERSIONS SHOWN ON THE FOLLOWING PAGES AS YOUR STARTING POINT. THEN CHOOSE THE SPECIFIC EMBELLISHMENTS YOU WANT. VISIT WITH YOUR LOCAL WINCHESTER FIREARMS DEALER AND WE'LL WORK OUT THE DETAILS TO MAKE YOUR DREAM A REALITY. ALL CUSTOM MODEL 70'S INCLUDE MATCH GRADE, CUT-RIFLED BARRELS WITH SQUARED, HAND-HONED ACTIONS. MOST ARE AVAILABLE IN STAINLESS OR BLUED, AND RIGHT- OR LEFT-HANDED, HAND-FITTED ACTIONS. ALL UTILIZE THE LEGENDARY PRE-'64 TYPE ACTION WITH CONTROLLED ROUND FEED IN MOST SPORTING ARMS AND AMMUNITION MANUFACTURER'S INSTITUTE (SAAMI) APPROVED CALIBERS, WITH SPECIALLY TUNED TRIGGER SYSTEMS. APPROXIMATELY SIX ADDITIONAL STEPS, MODIFICATIONS AND PROCESSES SET EVERY WINCHESTER CUSTOM SHOP RIFLE APART. ALL ARE SHIPPED IN A HARD CASE. PLEASE VISIT OUR WEBSITE AT WINCHESTER-GUNS.COM.

NEW

MODEL 70
CUSTOM CARBON

The ultimate rifle for superior accuracy, light weight and weather resistance has arrived. The new Custom Carbon is built around a smooth, hand-honed Model 70 stainless action with controlled round feed. The barrel begins as a Schilen stainless barrel blank and is wrapped in a high-modulus graphite epoxy. It dissipates heat 25% faster than a steel barrel and is five times lighter, stronger and stiffer which makes not only for more accurate shooting, but more consistent shooting as well. The composite stock is reinforced with a braided fiberglass structure and integral aluminum pillars. Available in any long action SAAMI caliber on special order, plus the three high-performance WSM calibers.

NEW

MODEL 70
CUSTOM FEATHERWEIGHT™

The Model 70 Featherweight is considered by many to be the perfect rifle — now made in the Custom Shop in three of the most popular calibers and in right- and left-hand versions. The classic style Model 70 action with massive claw extractor bolt is hand-honed and matched for unbelievable smoothness. A semi-fancy American walnut stock features cut checkering and a Schnabel fore-end and is fitted with a 1" Decelerator™ recoil pad and flush-mount sling swivels. Match grade 22" barrel. Available in blued and stainless models.

THE WINCHESTER MODEL 70 IS THE ULTIMATE PLATFORM FOR YOUR CUSTOM GUN INVESTMENT. EACH RIFLE ON THESE PAGES HAS THE STRENGTH OF A PRE-'64 STYLE CLAW EXTRACTOR, THE SURENESS OF CONTROLLED ROUND FEED, THE CONVENIENCE OF A THREE-POSITION SAFETY AND THE DURABILITY OF A RECEIVER-MOUNTED BLADE EJECTOR. ALL THE RIGHT FEATURES TO MAKE YOUR NEXT HUNT A SUCCESS. NEW CUSTOM FEATHERWEIGHT AND NEW CUSTOM CARBON MODELS ALSO ARE AVAILABLE IN THE NEW, HIGH-PERFORMANCE WSM CALIBERS.

NEW
MODEL 94
CUSTOM LIMITED EDITION
NEW GENERATION

The next generation of the venerable Model 94 has arrived. This limited, custom version of the most popular lever action rifle ever features a fancy pistol grip stock and long nose forearm with spade checkering. The high-luster blued receiver is custom engraved with a gold moose scene on the right and a gold doe and buck scene on the left. The New Generation Model 94 is also the first custom gun with the new tang safety. 20" barrel. Available in 30-30 Winchester. This beautiful rifle is available in very limited numbers.

MODEL 70
CUSTOM SAFARI EXPRESS

NEW LEFT-HAND CALIBERS

Attention to detail sets this rifle apart from the ordinary. The Custom Safari Express is easy to recognize with its precise, highly-functional, 3-leaf express rear sight and front sight hood. You'll love the semi-fancy American walnut stock, elegant shadowline cheekpiece and 1" deluxe recoil pad. Plus, it features one-piece bottom metal and honed internal parts. Now available in most popular African calibers, including a left-handed .416 Rem. Mag.

MODEL 70
CUSTOM AFRICAN EXPRESS

Always ready for action and always exceptionally beautiful. The special "Obendorf"-style floorplate increases magazine capacity to four. The semi-fancy, hand-oiled, English walnut stock with ebony grip cap and forearm are tasteful and exceptional in both appearance and fit. A 3-leaf rear express sight with adjustable front sight. Fitted with a 1" black Pachmayr® Decelerator™ pad.

MODEL 70
CUSTOM ULTIMATE CLASSIC

Start your custom gun here. Slimmer styling and special rounded fore-end. Straight cheekpiece. Fancy grade walnut stock, Custom Shop serial numbers, inletted swivel bases. Round or fluted round, 1/2 octagon 1/2 round, or full tapered octagon barrels. Hand-crowned match grade barrel. One-piece bottom metal floorplate and trigger guard. Choose blued or stainless.

MODEL 70
CUSTOM SHORT ACTION

NOW AVAILABLE IN LEFT HAND

A true short action Model 70 from the Custom Shop. Semi-fancy American walnut stock with shadow-line cheekpiece. The Model 70 Classic Custom is beautifully finished with a satin polyurethane finish. Features include inletted swivel bases. It's a custom companion to the factory, long action Super Grade. Available in most SAAMI short action calibers. Now available in 270 WSM, 7mm WSM, and 300 WSM. Available in left-hand models.

MODEL 70
CUSTOM EXTREME WEATHER

With an all stainless action and barrel designed to withstand the effects of nature, the Custom Extreme Weather is the rifle built to tackle the toughest, worst conditions you may encounter on your next hunt. The McMillan fiberglass stock resists the effects of cold and humidity and features a cheekpiece and 1" Pachmayr® Decelerator® recoil pad. Choose from a round or fluted round match grade barrel. Available in most popular long action calibers.

MODEL 94 ENGRAVING PATTERNS.

For the ultimate in Model 94 rifles, choose a unique custom version, adorned with your choice of engraving patterns and gold embellishments. Custom checkering patterns also may be requested.

70-8 FLOORPLATE

MODEL 70 ENGRAVING PATTERNS.

Four examples of engraving patterns are displayed on the previous page for your customized Model 70 receiver, breech of barrel (not shown), grip cap, floorplate and trigger guard. Select from patterns 70-5 through 70-8. The 70-8 pattern floorplate is shown at left. Other options are available. Custom stock checkering patterns may also be requested in styles K, F, or B, as shown. Please contact your local Winchester dealer for ordering information.

NOTES:

*For additional capacity, add one round in chamber.

1. Drops are measured from center line of bore. 2. Twist is right hand. 3. Scopes, bases and/or rings are not included unless otherwise noted. 4. Suggested retail prices are in U.S. dollars and are subject to change without notice.

SAFETY FIRST

Responsible gun owners have always been extraordinarily safety conscious. We support you in your efforts to teach and pass on the vitally important standards of firearms safety; at home and in the field. Every new Winchester firearm comes from the factory with a safety lock. The locks — either a cable-type lock, padlock, or other type depending on your gun — are very easy to use.

Using gun locks, being a good example and teaching others about firearms safety shows you care. For more information on firearms safety contact the NRA on the web at www.nra.org. Start or renew your NRA membership today by calling 1-800-NRA-3888.

We proudly donate a portion of the sale of every Winchester firearm to the Heritage Fund, which helps to expand the legal defense against politically motivated lawsuits against our industry. We work together to promote the rightful tradition of firearms in America.

WINCHESTER
RIFLES AND SHOTGUNS

Instruction manuals for all Winchester firearms in this or previous catalogs are available upon request at no charge. Owners of Winchester firearms without instruction manuals are encouraged to request one on-line or at the address below. Some models and especially calibers are made periodically only. We reserve the right to delay, postpone or discontinue production of any Winchester firearm for any reason without notice. All specifications in this catalog are subject to change without notice. Weights, stock dimensions, wood appearance, etc., may vary slightly between individual firearms. Wood is a natural product. No two pieces are alike and variation between stocks is to be expected. U.S. Repeating Arms Co. reserves the right to modify or change specifications without notice. We do our best to make sure this catalog is accurate at the time of printing. We apologize for any errors in photographs, descriptions and specifications. Please note that the following models are or were manufactured in Japan for U.S. Repeating Arms: Models 1885, 1886, 1892, 1895, 63 and 52B. The Super X2 shotgun is manufactured in Europe. The Supreme is manufactured in Belgium.

The following are trademarks of U.S. Repeating Arms Co.: Ultimate Classic, Black Shadow, Legacy, Angle Eject, Stainless Marine, Laredo, LRH, Universal Hunter, SX2 Greenhead. • The following trademarks are licensed from the Olin Corporation: Supreme, Super X, Super X2, Pre-'64, Big Bore, Defender, Featherweight, Super Grade, Model 70, Model 94, Model 1300, Model 1400, Model 1400, Model 9422, Model 1895, Model 63, Model 1892, Ranger, Super Express, Trapper, Winchester, WinChoke, WinCam, WinTuff, WinPlus, Model 12, Model 42, Model 52B, "The Gun That Won The West" and "The Rifleman's Rifle." • Other trademarks used in this catalog: Mossy Oak Shadow Grass and Mossy Oak Break-Up are registered trademarks of Mossy Oak.
